Trump 'no longer has plans' to visit India: NYT

New York, August 30: US President Donald Trump "no longer has plans" to visit India later this year for the Quad Summit, The New York Times claimed Saturday, as it detailed how relations between the American leader and Prime Minister Narendra Modi "unraveled" over the last few months

In the report titled 'The Nobel Prize and a Testy Phone Call: How the Trump-Modi Relationship Unraveled', the NYT, citing people familiar with Trump's schedule, said that "After telling Mr Modi that he would travel to India later this year for the Quad summit, Mr Trump no longer has plans to visit in the fall."

There was no official comment from either the US or India on the NYT's claim. India will host leaders of Australia, Japan and the US for the Quad Summit, scheduled to be held in New Delhi around November.

Amid trade tensions between Delhi and Washington, the NYT article gives an account of how relations between Trump and Modi "unraveled" after Trump's repeated claims of solving the four-day conflict in May between India and Pakistan, an assertion denied by India.

"President Trump's repeated claims about having 'solved' the India-Pakistan war infuriModi of India. And that was only the beginning," the NYT article said, adding that Modi was "losing patience" with Trump.

ated Prime Minister Narendra

Trump and Modi had spoken over phone June 17, a 35-minute call that happened as Trump returned to Washington from the G7 Summit in Canada, which Modi also attended. The NYT said that during the June 17 phone call, Trump said again how proud he was of ending the military escalation and mentioned that Pakistan was going to nominate him for Nobel Peace, an honour that has been bestowed on former President Obama and one for which Trump has been "openly campaigning".

"The not-so-subtle implication, according to people fa miliar with the call, was that Mr Modi should do the same,' and also nominate Trump for the Nobel, the paper said.

'The Indian leader bristled He told Mr Trump that US involvement had nothing to do with the recent ceasefire. It had been settled directly between India and Pakistan," the NYT said.

"Trump largely brushed off Mr Modi's comments, but the disagreement — and Mr Modi's refusal to engage on the Nobel - has played an outsize role in the souring relationship between the two leaders, whose once-close ties go back to Mr. Trump's first

term," the NYT said.

Woman Gangraped

Baripada: A 22-year-old woman was allegedly raped by five people in Mayurbhanj district, police said. The incident took place Friday evening, when two persons known to the woman picked her up in a car from Bangiriposi area on the pretext of discussing a lucrative job, they said. She was taken to a place under Udala police station area. Three others later joined them in the car, who took her to a secluded place on a stretch connecting Udala and Balasore, and allegedly raped her, SDPO (Udala). Hrushikesh Nayak, told reporters. She was later dumped on the road. The police have detained two persons and search is on for three others.

Mahanadi talks on

ON WARPATH: BJP MP Kamaljeet Sehrawat and others climb barricades as water cannons being used during a protest march to Congress headquarters over the objectionable comments made

Odisha, Chhattisgarh Chief Ministers may meet in December

New Delhi/Bhubaneswar, August 30: The chief secretaries of Chhattisgarh and Odisha met in the national capital Saturday to iron out their differ ences on Mahanadi river water sharing, and emphasised to amicably work out a solution for the benefit of the people of the two states, officials said.

against Prime Minister Narendra Modi and his mother at Congress leader Rahul Gandhi's 'Vote Adhikar Yatra.' in New Delhi, Saturday

The Mahanadi, one of India's major rivers that flows from Chhattisgarh through Odisha into the Bay of Bengal, has long been a source of dispute between the two states.

The meeting was held to resolve this longstanding issue through dialogue, in which the chief secretaries of Odisha and Chhattisgarh, along with the secretaries of their respective water resource departments, took part.

Both states acknowledged that the dispute is old and complex but emphasised that it is necessary to work out a solution amicably for the benefit of the people, the officials said.

It was decided that starting

September 2025, technical committees comprising engineers and experts from both states will meet every week.

These committees will identify the key issues, seek solutions, and also explore ways to establish a framework for better coordination between the two states.

Another meeting will be held in October at the level of chief secretaries in which the water resource secretaries will also participate.

At the meeting, both the states agreed to approach discussions with sincerity and an open mind, ensuring that any resolution reached is mutually

beneficial, they said.

It is believed that if this initiative succeeds, it will not only benefit Odisha and Chhattisgarh but also serve as a model for the entire country. showing that even longstanding disputes can be resolved amicably through dialogue and cooperation.

Taking to X, the Odisha CMO wrote that "the Chief Ministers of Odisha and Chhattisgarh may meet by December, as per convenience, to review the progress and work towards an amicable, long-term resolution to the Mahanadi water dispute in the interest of the people of

Now, IICs, SIs to probe SC & ST atrocity cases

Bhubaneswar, August 30: The state government Saturday empowered inspectors and sub-inspectors of the state police to arrest, investigate, and prosecute cases under the Scheduled Castes and Scheduled Tribes (Prevention of Atrocities) Act, 1989, an official notification said.

Previously, these powers were reserved for officers in the rank of Deputy Superintendent of Police (DSP) and

The notification said that these officers (inspector and SI) may now exercise authori ty before any special court designated under the Act, within their territorial jurisdiction.

The decision aims to improve responsiveness and expedite legal action in cases involving atrocities against Scheduled Castes and Scheduled Tribes, it said.

In the notification, the State Home Department stated that the move is aimed at strengthening the enforcement of the

law and improving the re sponse to atrocities committed against SC/ST communities.

Officials noted that while the number of such cases is steadily increasing, the availability of DSP-rank officers remains limited. Currently, Odisha has 613

officers at the DSP level, but over 4,000 cases are being registered annually under the Act. This mismatch has led to growing case backlogs. 'By delegating investiga-

tive powers to Inspectors and Sub-Inspectors, we expect faster response times and more efficient investigations, ensuring timely justice," said a Home Department official.

According to data from the state SC/ST department, Odisha recorded 2,320 atrocity cases in 2018. This number rose to 3.675 in 2022 and surpassed 4,000 in 2024.

The new policy aligns with steps taken by other states like Jharkhand, which in 2023 also empowered Inspectors and Sub-Inspectors to handle such cases.

Cloudburst, landslide leave 11 dead in J&K

PRESS TRUST OF INDIA

Jammu, August 30: At least 11 people, including seven of a family, died in two incidents of cloudburst and landslide triggered by heavy rains in remote villages of Reasi and Ramban districts, as Jammu and Kashmir, beset by a series of natural calamities in the past fortnight, labours to bring life back on track.

The Union Territory has been reeling under a series of cloudbursts and landslides since August 14. With the latest incidents, 130 people have lost their lives and 140 were injured in Jammu, while 32 pilgrims are still missing.

The pilgrimage to the Mata Vaishno Devi shrine atop Trikuta hills in Reasi district remained suspended for the fifth day Saturday. As many as 34 pilgrims died when a landslide struck about halfway along the winding 12-km trek route from Katra to the shrine Tuesday. Chief Minister Omar Abdul

lah has directed officials to ensure round-the-clock monitor ing of the situation and carry out timely evacuation of people from risk-prone zones.

Early Saturday, a landslide flattened a house in the remote Badder village in Reasi district killing seven members of a family, officials said. The deceased have been identified as Nazir Ahmad (38), his wife Wazira Begum (35) and their sons Bilal Ahmed (13), Mohd Mustafa (11), Mohd Adil (8), Mohd Mubarak (6) and Mohd Wasim (5).

In Ramban district, four people including two brothers, died after a cloudburst struck a remote vil lage, damaging two houses and a school. The cloudburst triggered flash floods in the mountainous Raigarh, located about 25 kilome tres from the district headquarters, around 11.30 pm Friday.

Meta creates flirty chatbots of Swift, other celebs sans nod Mark Lemley, a Stanford Uni-

San Francisco, August 30: Me-

ta has appropriated the names and likenesses of celebrities including Taylor Swift, Scarlett Johansson, Anne Hathaway and Selena Gomez - to create dozens of flirty social-media chatbots without their permission, Reuters has found.

While many were created by users with a Meta tool for building chatbots, Reuters discovered that a Meta employee had produced at least three, including two Taylor Swift "parody" bots.

Reuters also found that Meta had allowed users to create publicly available chatbots of child celebrities, including Walker Scobell, a 16-year-old film star.

Asked for a picture of the teen actor at the beach, the bot produced a lifelike shirtless image. "Pretty cute, huh?" the ava-

tar wrote beneath the picture. All of the virtual celebrities have been shared on Meta's Facebook, Instagram and al weeks of Reuters testing to

WhatsApp platforms. In severobserve the bots' behaviour, the avatars often insisted they were the real actors and artists. The bots routinely made sexual advances, often inviting a test user for meet-ups. Some of the AI-generated celebrity content was partic-

ularly risqué: Asked for inti-

mate pictures of themselves,

the adult chatbots produced

photorealistic images of their

namesakes posing in bathtubs

or dressed in lingerie with their legs spread.

Meta spokesman Andy Stone told Reuters that Meta's AI tools shouldn't have created intimate images of the famous adults or any pictures of child celebrities. He also blamed Meta's production of images of female celebrities wearing lingerie on failures of the company's enforcement of its own policies, which prohibit such content.

"Like others, we permit the generation of images containing public figures, but our policies are intended to prohibit nude, intimate or sexually suggestive imagery," he said.

While Meta's rules also prohibit "direct impersonation," Stone said the celebrity characters were acceptable so long as

the company had labelled them as parodies. Many were labelled as such, but Reuters found that

some weren't. Meta deleted about a dozen

of the bots, both "parody" avatars and unlabeled ones, shortly before this story's publication. Stone declined to comment on the removals.

whether the Meta celebrity bots would qualify for legal protections that exist for imitations. "California's right of publicity law prohibits appropriating someone's name or likeness for commercial advantage," Lemley said, noting that there are

versity law professor who stud-

ies generative AI and intellec-

tual property rights, questioned

exceptions when such material is used to create work that is entirely new. "That doesn't seem to be true here," he said, because the bots simply use the stars' images.

In the United States, a person's rights over the use of their identity for commercial purposes are established through state laws, such as California's.

SOPHIE SPLITS FROM **PEARSON AGAIN**

The Game of Thrones star Sophie Turner's love life has hit rock bottom again. The actress is said to have split from Peregrine Pearson. Just months after the 29-year-old actress and the 30-year-old British aristocrat rekindled their romance, they are believed to have called it quits once again, reports Female First UK.

CUMBERBATCH'S MANTRA TO HAPPY MARRIAGE

English star Benedict Cumberbatch shared what he believes to be the key to a happy marriage. "Don't be complacent and keep the conversation between you going rather than thinking one of you is always right. It's also important to be tolerant, understanding and never stop working at it," the actor told BBC.

accuracy • reliability • trust

You are deeply interested in the occult and the paranormal and today, you may indulge in something to do with it. So, you may buy a full colour 15x10 glossy on shamanic rites or the tantra! Ganesha suggests using such knowledge for peaceful ends.

TAURUS

You are likely to get extra passionate and fervent today, predicts Ganesha. If your logic prevails over your heart, things will probably change for better during the course of the day. It is high time that you set into motion the poignant side of your character, suggests Ganesha.

GEMINI

Today, you will decide to become a bit more conscious about your health. You may or may not join a gym or measure your calories, but you will definitely sit up and take notice of your lifestyle and unhealthy food habits, predicts Ganesha A new job is also likely, which will pen a completely new chapter in your life.

CANCER

You are likely start the day in the best of spirits today. Your enthusiasm and cheerfulness will be infectious, and you will be able to lift the mood wherever you go. However, your enthusiasm can be short-lived and pummelled under the weight of some bad news, leaving you distraught. Take a break in case you feel stressed out, advises Ganesha.

Always dependable, that is what you are. And today, you will just underline this fact in bold strokes through your fine display of to your family, says Ganesha. Your company may never find a better person for the job that you are assigned to do. Even at home, your credentials as the perfect family man will shoot right off the charts.

Ganesha sees you keeping

away from a joint venture. You are capable enough to handle big projects yourself. You are most likely to lead and coordinate large teams and extract work from them as you will.

"Every man has specific nat-ural abilities", said Aristotle. This seems to be true for you today. Your natural talents will be acknowledged and documented at work. This might prompt your equals to hold you up above the rest, and for your seniors to positively encourage you to scale greater heights.

SCORPIO

The crown jewel of your character will be your supreme confidence today. Try to pick up tasks that require herculean efforts, and you shall come close to achieving them, predicts Ganesha. Your nerves and buoyant nature will be infective and also leave people awestruck.

SAGITTARIUS

You are like a new hope for your company and you are assigned with many challenging projects, today. And your hard work and efforts are appreciated when you handle the projects successfully. If you are fortunate enough, you may also gain incentives very soon, predicts Ganesha.

CAPRICORN

Creativity is your innate trait. But how creative can you get when dealing with day-to-day issues? You will not only answer this question with utmost modesty, but will make a great display of your creative skills by cleverly sorting out problems with your siblings, says Ganesha. You will derive pleasure by delving into knotty problems and solving them with ease. Also, you will reach out to those in need and help them in every possible manner.

AQUARIUS

Money is on your mind today! If you want to sort out financial matters, today is the day. You may have a good time with friends in the evening. You will also realise how much your friends value you and the respect you command in your wider social circle. Ganesha says maintaining it is important.

PISCES

Today, you will find yourself partitioning your time equal-ly, and more importantly, excelling, at work as well as at home. So, while you will prove to be the right man for the job assigned to you at the office, at home you will establish yourself as the perfect family man, says Ganesha.

growing up with both Bollywood and global content that has influenced her to seek out fresh, layered and relatable roles.

Ananya shared how being part of a generation influenced by both Bollywood and global content has shaped the roles she gravitates toward. The actress told this news agency: "I love that we have

access to both the drama and emotion Bollywood and the realism and depth of global storytelling. It makes you want to find roles that are layered and fresh, but still entertaining."

The 26-year-old actress said that she gravitates more towards characters that are relatable. "I gravitate towards characters

that feel relatable but also have something a little different, whether it's in how they dress, speak, or see the world," said the Liger actress. Looking forward, has Ananya

Sishu Bhawan gets additional 424 beds

POST NEWS NETWORK

Bhubaneswar, August 30: In a step towards ensuring quality tertiary care to children, the state government sanctioned 424 more beds for Sardar Vallabhbhai Patel Post Graduate Institute of Paediatrics, popular as Sishu Bhawan, in Cuttack Saturday.

Health and Family Welfare (H&FW) Minister Mukesh Mahaling approved 424 more beds for Sishu Bhawan, taking the total bed strength at the premier paediatric heath facility to 846 from the existing 422 at the old building of the hospital,

According to sources, Union H&FW Minister JP Nadda, along with Chief Minister Mohan Charan Majhi and Mahaling, inaugurated the new seven-storey building of the hospital in the Silver City April 11, 2025.

"The bed strength has been enhanced to 846 keeping in mind the new seven-storey facility. Along with the bed strength, the state government has also sanctioned 59 new faculty and doctor posts in different categories," said the official.

GOVTS MUST WORK TOGETHER TO DELIVER WELFARE SCHEMES: BIRLA

Bhubaneswar, August 30: Lok Sabha Speaker Om Birla Saturday stressed that both the Centre and state governments must work in close coordination to ensure that welfare schemes effectively reach the last mile, particularly the Scheduled Castes (SCs) and Scheduled Tribes (STs).

Addressing the valedictory session of the two-day 'National Conference of Chairpersons of Committees of Parliament and State Legislatures on the Welfare of Scheduled Castes and Scheduled Tribes' here, Birla said the true benefits of development can be delivered only through such joint efforts.

He underlined the urgent need for every state Assembly to constitute dedicated committees on the welfare of SCs and STs so that sustained attention can be given to issues concerning these communities.

While Parliament already has such committees monitoring welfare measures, Birla observed that their absence in some states limits effective

oversight at the grassroots level. Such committees, he said, would not only enable regular

review of schemes and policies but also ensure timely redressal of SC/ST concerns. He urged state legislatures to

take the lead in setting up these committees to strengthen accountability and bring welfare initiatives closer to the people. India, Birla noted, has under-

taken wide-ranging reforms to

safeguard the rights of SCs and

temporary aspirations. Committees, he added, play a vital role in scrutinising budgetary provisions, assessing the performance of welfare schemes, and recommending improvements-thereby ensuring transparency and accountability in governance.

STs and align them with con-

He emphasised that constructive recommendations from these committees should be seen as guidance for course correction, not as criticism.

When governments and committees work together in this spirit, he said, the results are more enduring and effective.

Highlighting the deliberations during the conference, Birla said participants explored ways to ensure that constitutional safeguards, budgetary allocations, and welfare schemes truly empower SC/ST communities and make them self-reliant.

He stressed that the roadmap must address social, educational, economic, and political as pects of development so that by 2047, India realises Babasaheb Bhimrao Ambedkar's vision of an equitable and inclusive society. Birla also called for empowering SCs and STs through education and technology.

Expressing confidence that the 'Bhubaneswar Agenda 2025' would act as a framework for future action, he said with the blessings of Lord Jagannath and the vision of Ambedkar, India will march towards building a 'Viksit Bharat' by 2047, where every SC and ST member lives with

Nation's strength lies in dignity of marginalised communities: Guv

Governor Hari Babu Kambhampati Saturday underlined that the true strength of a nation lies not in its infrastructure but in the dignity, freedom, and opportunities given to its most marginalised communities.

Speaking at the valedictory session of the two-day 'National Conference of Chairpersons of Committees on the Welfare of Scheduled Castes (SCs) and Scheduled Tribes (STs), Kambhampati said, "The welfare of SCs and STs is not merely a question of policy; it is a measure of our progress as a democracy built on the pillars of equality, dignity, and fraternity."

He stressed the vital role of Parliamentary and State Legislature Committees in ensuring that constitutional safeguards translate into meaningful action.

Highlighting Odisha's context, the Governor noted that nearly two-fifths of the state's population belongs to SCs and STs, including 64 tribal groups and 13 PVTGs. He cited President Droupadi Murmu and NEET qualifier Champa Raspeda from the Didayi PVTG as examples of how education can transform lives.

dignity, equality, and justice.

On the occasion, Governor Hari Babu Kambhampati, Deputy Chief Minister Pravati Parida, Speaker of Odisha Legislative Assembly Surama Padhy,

Chairman of the Parliamentary Committee on Welfare of SCs and STs Faggan Singh Kulaste, and Rajya Sabha Deputy Chairman Harivansh also addressed the gathering.

Supply adequate fertilisers to Odisha, Naveen urges Centre

Bhubaneswar, August 30: Amidst resentment among farmers over alleged scarcity of fertilisers in Odisha, BJD chief Naveen Patnaik Saturday sought the Centre's intervention into the matter and demanded adequate supply of urea during the current kharif season. Patnaik's appeal came follow-

ing reports of farmers hitting the streets to press for fulfilment of their demand for adequate supply of fertilisers in southern Odisha districts of Malkangiri, Ganjam and Nabarangpur.

Their protest in Malkangiri led to the disruption of traffic movement on NH-326 Friday.

STATE GOVT CLAIMS NO SCARCITY

However, Food Supplies and Consumer Welfare (FS&CW) Minister Krushna Chandra Patra ridiculed Patnaik for writing a letter to the Centre and demanding more fertilisers for the state.

'There is no scarcity of fertilisers in Odisha," Patra said. The minister further claimed

that farmers are satisfied with the BJP government, which hiked the MSP for paddy to Rs 3,100 per quintal. "Farmers, who stopped cultivation during BJD government, now see a future in farming under the Mohan Charan Majhi government," he claimed.

Earlier in the day, Patnaik in

a letter to Union Chemicals and Fertilisers Minister JP Nadda requested him to take necessary steps for adequate supply of urea to Odisha during this Kharif season in the larger interest of the

farming community. Noting that agriculture is the mainstay of Odisha's economy, which provides livelihood to more than 70 per cent of its population, the BJD chief said the state's growth in the agricultural sector has been spectacular over the past two decades.

"From a mere importer of rice, Odisha has transformed itself into a major contributor to the

country's public distribution system," he mentioned in the letter.

Patnaik said Odisha has become self-sufficient in rice production, and this was possible because of the use of technology

and adequate supply of inputs. Fertiliser is a major input to agricultural production, and its smooth supply is very crucial for crop growth during the Kharif season, he said.

Patnaik pointed out that the farmers of Odisha are now facing a major problem in obtaining urea during this ongoing Kharif season. "Short supply of urea along with its black marketing and adulteration is a major concern for our farmers," he claimed.

Efforts are underway to apprehend the main accused in the drug trafficking.

The seized contraband and other items were confiscated in the presence of an executive magistrate and two independent witnesses.

The accused will be produced before the court on Saturday as the investigation continues to uncover more details about the drug supply chain.

"Puri Police achieved significant success as part of its ongoing anti-drug campaign. Acting on intelligence inputs about the movement of interstate drug suppliers, the Special Squad, SDPO Sadar team, and Chandanpur Inspector-in-Charge coordinated efforts and tracked the suspects. When the accused arrived to supply the drugs, they were arrested by our team," SP Singh said while briefing the media.

The SP added that efforts are being intensified to make Puri a drug-free district and more

CAG Research Foundation hosts state-level debate

Bhubaneswar, August 30: The CAG Research Foundation Saturday hosted a state-level debate and discussion on the theme "Odisha: Rich in Resources, Poor in Outcomes Who is Responsible? What Needs to Be Done?" at Gita

Govinda Sadan here. Several eminent personalities attended the event and shared their views, including former Union Minister Srikant Jena, OPCC president Bhakta Charan Das, former ministers Prafulla Ghadai and Javadev Jena, along with other dignitaries from diverse fields.

The essay competition drew 160 participants from 20 districts, with a majority of entries from female students-highlighting strong interest among

ernance and equity.

The meeting was presided over by CAG Research Foundation secretary Chidananda Jena and founding member Akshav Kumar Mallick, while the foundation's founder, Ravi Rajan, delivered a thematic presentation. Speakers unanimously noted that despite its rich natural and human resources. Odisha continues to lag in development due to weak political will, poor policy formulation and lack of sincere governance. The gathering also resolved to take the debate to different parts of the state to broaden public discourse on these issues.

The programme also featured a prize distribution ceremony for an essay competition on the theme "Is Odisha Lagging Behind in Social Justice?

Chariot wheels on Parl premises soon

PRESS TRUST OF INDIA

Bhubaneswar, August 30: Lok Sabha Speaker Om Birla has agreed to the Shree Jagan nath Temple Administration (SJTA) proposal of installing three wheels of the chariots of Puri Rath Yatra on the Parliament premises, a senior official said Saturday.

In a statement, SJTA said: "During Lok Sabha Speaker Om Birla's visit to Srimandir in Puri, a proposal was given by the administration for installing three wheels of chariots of Rath Yatra in the Parliament premises. Hon'ble Speaker has accepted the pro-

SJTA chief administrator Arabinda Padhee, in a post on X Friday, said: "Hon'ble Lok Sabha Speaker, accompanied

by other dignitaries, visited Shree Jagannatha Temple today, seeking Mahaprabhu's blessings. We are deeply grateful to the Hon'ble Speaker for graciously agreeing to our proposal to install one wheel each from the three sacred chariots of Ratha Jatra at a prominent location within the Parliament

premises." Birla, accompanied by Union Minister Dharmendra Pradhan and Puri MP Sambit Patra, were welcomed by SJ-TA chief administrator at the

Lion's Gate Friday. Padhee said that the wheels of Nandighosh (Lord Jagannath), Darpadalan (Devi Subhadra) and Taladwaja (Lord Balabhadra) chariots will go to Delhi and be installed as a lasting emblem of Odisha's timeless culture and spiritual heritage. After the annual Rath Yatra, the three chariots of the deities are dismantled every year. New wood is used in the construction of chariots every year, except for some prominent parts, according to Nandighosh chariot chief carpenter Bijay

Cong seeks CM's apology over Rahul Gandhi remark

Bhubaneswar, August 30: The Odisha Pradesh Congress Committee (OPCC) Saturday demanded an apology from Chief Minister Mohan Charan Majhi for his remarks on Rahul Gandhi and the Congress over the Voter Adhikar Yatra incident in Bihar, which the party alleged was staged by the BJP.

Addressing a press conference here at Congress Bhawan, OPCC spokespersons Rajani Mishra and Jayashree Patra alleged that the BJP was conspiring to malign Rahul Gandhi and derail the ongoing Voter Adhikar Yatra in Bihar.

Mohanty alleged that the BJP, through its minority cell functionary Mohammad Rizvi, deliberately tried to create a controversy by making objectionable remarks against Prime Minister Narendra Modi and his late mother at a press meet in Patna. "Rahul Gandhi was attempting to defame him and the Congress leadership before the people," he added.

Mohanty further said that although media reports and photographs on social media identi fied Rizvi as a BJP functionary seen with senior leaders like former Madhya Pradesh CM Shivraj Singh Chouhan, Chief Minister Maihi still chose to target Rahul Gandhi and the Congress without any factual

The Congress spokesperson also recalled past instances where BJP leaders, including Prime Minister Modi, had made derogatory remarks against So nia Gandhi and Rahul Gandhi questioning why CM Majhi nev er objected to such comments Mohanty reiterated the demand for an apology from the Chief Minister over his remarks against Rahul Gandhi and the Congress.

OSPCB to BMC: Reply on Sainik School TTS

POST NEWS NETWORK

Bhubaneswar, August 30: The Odisha State Pollution Control Board (OSPCB) Saturday wrote to the Bhubaneswar Municipal Corporation (BMC) seeking an immediate response regarding the Temporary Transit Station (TTS) at the Sainik School campus.

In its letter, the OSPCB stated, "A public complaint has been received from residents living around the Sainik School Temporary Solid Waste Transfer Point. A copy of the complaint is enclosed, with a request to submit the pointwise compliance status by September 3, positively.

The OSPCB issued the letter after the 'Sainik School Banchao Alia Gada Hatao Abhiyan submitted a complaint over the Gadakana dumping yard, alleging it has long affected the health of local residents. The outfit sought immediate action and demanded that the Civic Body be held accountable for

State Pollution **Control Board** failing to find a solution and re-

locate the yard. It also warned of gheraoing the OSPCB office September 1 if no action was taken. Following this, the OS-PCB asked the BMC to submit its response by September 3.

It may be noted that local residents, along with the 'Sainik School Banchao Alia Gada Hatao Abhiyan,' have been protesting for the relocation of the Gadakana dumping yard from the Sainik School area, citing excessive pollution. They have also raised serious health concerns, alleging that emissions from the yard are causing skin diseases and respiratory prob-

SNEH hosts seminar on restorative justice

POST NEWS NETWORK

Bhubaneswar, August 30: The Society for Nature, Education, and Health (SNEH) organised a seminar on 'Role of Restorative Justice in Domestic Conflict Resolution' here Saturday.

The seminar was inaugurated by Odisha State Commission for Women (OSCW) member Urmilla Mahapatra, chief pro bation officer Amiya Kumar Nath Sharma, and retired law consultant Bijoy Chandra Ma hapatra. SNEH president Subarna Ghosh welcomed the par ticipants, while advisor Subas Panda outlined the objectives stressing restorative justice as a means to address domestic conflicts and promote community integration.

Calling restorative justice a 'viable option' for resolving family and community disputes, Sharma said, "Restorative justice fosters harmony within the com munity by focusing on reconcili ation rather than punishment.

Speaking at the event, Urmila emphasised its importance in supporting survivors, noting,

Banned pharmaceutical drugs racket busted

Bhubaneswar, August 30: Police in Bargarh district Saturday arrested eight suspected drug peddlers and made a seizure of huge cache of pharmaceutical drugs, banned under the provisions of Narcotic Drugs and Psychotropic Substances Act (NDPS), 1985,

said Superintendent of Police,

Bargarh, Prahlad Sahai Meena. Huge cache of Codeine-laced Onerex cough syrup, a banned substance under NDPS Act. pentazocine injection (group of drug called narcotic analgesics), Nitrosun-10 tablets (sedative not recommended for children below 18 years of age) were seized from the pos-

session of the arrested persons after interception of a luxury car en route from Gaisilat to

Padampur, Meena informed. The Bargarh police have launched 'Operation Garuda' to strike against criminals and curb organised crime of all forms including drug peddling to ensure the safety of people and make the western district a drug-free zone.

"Restorative justice is neces sary solution in today's time Victims require a little moral courage." Highlighting legal gaps, Mohapatra said, "Alter native justice methods are essential to address the loopholes of the punitive justice system.

Nobel laureate Kremer lauds state's crop advisory model

POST NEWS NETWORK

Bhubaneswar, August 30: Nobel laureate Michael Kremer and a 12-member team from University of Chicago visited Krushi Bhavan here Saturday, to discuss about ongoing research project on weather forecast dissemination system and its rationality, validity, and acceptability among the farming community in the state.

Agriculture and Farmers' Empowerment department Principal Secretary Arabinda Kumar Padhee, Agriculture and Food Production director Shubham Saxena, Soil Conservation and Watershed Development director Subrat Kumar Panda, scientists from OUAT and members of the Climate Resilience Cell (CRC) were also present in the meeting.

Kremer appreciated depart-

ASSIFIED

ERTISEMENTS CON

line (KSH) initiative and noted that the outreach of KSH is helping last-mile farmers in saving their crops from climate-related challenges. He also suggested introducing Artificial Intelligence (AI)-based forecasting, taking rainfall, temperature, and humidity into account, to better predict pest incidences. "Such forecasting would help farmers adopt precautionary and preventive measures to protect crops from abnormal weather occurrences," he said, further

emphasising that integrating multiple weather forecasting models with the existing KSH system of DA and FE is the need of the hour.

On the occasion, Padhee highlighted the department's holistic approaches, including comprehensive rice fallow management for enriching soil biomass, crop insurance, customised agro-advisories, digital crop surveys, farmer registry, the Krushak Odisha database, adoption of stress-tolerant crop varieties and digital

PEO held for embezzling old-age pension funds

POST NEWS NETWORK

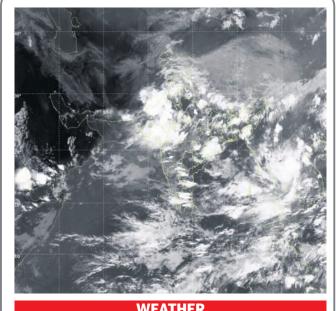

Jajpur, August 30: Vigilance sleuths Saturday arrested a panchayat executive officer (PEO) in Jajpur district for allegedly misappropriating₹7.35 lakh of government funds meant for old-age pension beneficiaries.

The arrested official, identified as Santosh Kumar Jena, is currently attached to Danagadi block. He had allegedly indulged in the misappropriation during his tenure in Pimpudia GP in Sukinda block.

A probe was initiated after allegations surfaced that Jena had siphoned off ₹7.35 lakh allocated for the distribution among old-age pension beneficiaries in Pimpudia GP, Vigilance officials said. A thorough investigation was conducted and it was found that the accused had not distributed the funds to the beneficiaries and had instead diverted those for

Registration must to sell cotton at mandis

Bhawanipatna, August 30: For the first time, cotton farmers in Kalahandi district must register before selling their produce in local mandis under a new regulation introduced by the Cotton Corporation of India Ltd. to enhance transparency and streamline marketing.

Unlike paddy, which requires registration through primary agricultural cooperatives or women's self-help groups, cotton farmers previously sold their produce directly in mandis without any formalities.

Starting September 1, farmers can register via the 'Kapas Kisan' mobile app, with the registration process open until September 30, according to a letter received by Regulated Market Committee (RMC).

monsoon bird census

begins at Bhitarkanika

Rajnagar, August 30: Author-

ities of Bhitarkanika National

Park in Kendrapara district

launched a three-day census Sat-

urday to count the residential

monsoon birds that flock to the

park's wetland areas every year

by two teams of seven members

each under the supervision of

Divisional Forest Officer Bha-

radwaj Gaon. The teams include

ornithologists and wildlife per-

sonnel from the national park.

signed to Balidiha under the Ra-

jnagar range had to return with-

out conducting the census due to

According to Manas Das,

Assistant Conservator of For-

ests, the teams are conducting

the headcount of various avi-

an species that arrive during

monsoon. Monsoon triggers a

delightful cacophony of chirps

along the marshy wetlands of

the park. "Although the rain

was not uniform this year, lead-

ing to a delayed arrival of the

birds, we are still witnessing a

large congregation of these mi-

gratory species along the park's

mangrove areas," officials said.

The enumerators will cover

all the major congregation zones

both in and outside the nation-

al park. Besides the core areas

of the national park, peripher-

al wetland sites like Mathad-

iha, Laxmiprasaddiha, and

Durgaprasaddiha are also be-

ing taken up for the census, Das

said. Lack of human interfer-

ence, ideal climatic conditions,

cool breeze and the river system

here have emerged to the liking

of these delicate chirpy winged

Over a dozen types of local

residential birds congregate in

and around the national park for

nesting and breeding every year.

3 sentenced to life for murder

RMC, Uchhala under Junagarh RMC, and Utkela under Kesinga RMC. The government-set minimum support price (MSP) for cotton is ₹7,121 per quintal, but traders often pay higher prices for resale. Kalahandi's cotton is supplied to states like Maharashtra, Gujarat, Chhattisgarh, Andhra Pradesh and Tamil Nadu, where companies and brokers process it for domestic and international markets, reaping substantial

The absence of local spinning or weaving mills has left Kalahandi lagging in industrialisation despite abundance of raw material. Cotton cultivation in the district began around the government-established Konark Spinning Mill in Kesinga, which propelled Kalahandi to become the top cotton-producing region in state. However, the mill has since shut down. Bhawanipatna hosts Odisha's only cotton research facility, the All India Cotton Research Programme, supporting varieties like Rash 569, Tulasi Takat, Kanak, Bandi, and Raja.

Although the state government has not approved BT cotton, farmers remain enthusiastic. As an alternative to paddy, cotton offers higher profits: but the absence of government-owned mills means brokers transport much of the produce out of state. Reviving the Konark Spinning Mill could create significant opportunities for local farmers, boosting the district's economy.

Suspected B'deshi infiltrator carrying firearms detained

Rajnagar, August 30: Odisha Police has detained a suspected Bangladeshi infiltrator carrying an unlicensed firearm, officials said Saturday.

The man, identified as Mrutyunjaya Mandal, appeared to be under the influence of alcohol when he was apprehended in a coastal village within Rajnagar police station limits.

Although Mandal claimed to be a native of Sandeshkhali subdivision in West Bengal's North 24 Parganas,

he had migrated to Gupti village in Rajnagar in Kendrapara district to work as an agricultural labourer, police added. He was nabbed

with the fire-Further arm. investigation is underway as he has failed to furnish documentary proof of Indian citi-

zenship, said Naresh Sahu, Inspector-In-Charge, Rajnagar police station. Possibility of the migrant worker being a Bangladeshi infiltrator cannot

be ruled out, officials said, adding that

police are cross-checking his nativity with West Bengal Police. A case under the Arms Act has been filed, and if his Bangladeshi origins are confirmed, Mandal could also face charges under the Foreigners Act,

Kendrapara, with 1,649 registered illegal Bangladeshi immigrants, has the highest number of infiltrators in the coastal district.

Female elephant found dead in Hindol forest

dead in Nuakot forest under Hindol forest range of Dhenkanal district Saturday, Forest department sources said. Members of elephant squad, who were on duty, spotted the carcass. The exact cause of the animal's death has not yet been ascertained. Senior forest officials and the Hindol veterinary officer reached the spot and conducted a postmortem examination. An investigation is underway. Frequent jumbo deaths, apart from human fatalities and crop damage due to human-elephant conflict, have triggered growing resentment among residents of Hindol. Locals have accused the government and the Forest department of inaction and demanded immediate measures to address the crisis.

Mass CPR training programme organised at MITS Rayagada

POST NEWS NETWORK

Rayagada, August 30: Majhighariani Institute of Technology & Science (MITS), Ravagada in collaboration with the Sri Sathya Sai Seva Organisation successfully organised a Mass CPR Training Programme on its campus Saturday.

The programme was inaugurated by Dr LN Sahu from the Sri Sathya Sai Seva Organisation. Ravagada along with trust members of the organisation Ravi Kishore and Sunil Kumar Mohanty. The inaugural session was held in the presence of Biswajeet Panda, Vice Chairman (MITS Group), Dr CV Gopinath, Director, and Professor Ramanu-

More than 800 students, faculty, and staff from the MITS Group of Institutions (MITS, MIPS & MITC) actively participated and received training in lifesaving CPR techniques.

ia Navak, Principal.

The training was conducted by Brahma Mahadev Manda, Master Trainer, along with a team of four experienced trainers, who guided participants through practical demonstrations and hands-on sessions. The programme was well-structured, interactive, and impactful, equipping the participants with essential emergency response skills. The management and administration of MITS extended heartfelt thanks to the Sri Sathya Sai Seva Organisation for their noble initiative and dedicated service towards spreading awareness and building life-saving skills among youth and professionals.

This Mass CPR initiative is part of the organisation's larger mission to train 2 lakh individuals in Odisha by 2025 to respond effectively to cardiac emergencies, thereby

saving countless lives.

LOOKS AFTER

Diplomatic Delusion

o be able to correct a problem, we first have to acknowledge that a problem exists. If we do not make this acknowledgement, then we will not address the problem and it will not be corrected. The first step is to accept that there is an issue and then we can move

The problem we are discussing today is the effectiveness of personalised diplomacy of the sort that we have seen since 2014. It is centred around such things as physical interaction and displays of affection, grand events in honour of guests, and the idea that the 'friendship' that is produced by these actions will help resolve issues.

Why are we discussing this today? It is of course that the government of India is today struggling to find its place in the world. Nations it was convinced were friends if not allies have spanked it gratuitously, and it has been forced to turn to nations it saw till a few days ago as rivals if not enemies.

This is the problem. To address it, we will first have to acknowledge that it exists. This will not be easy for this government because it has rested its entire performance on the genius of one individual. To accept there is a problem is to acknowledge that the genius has not worked as had been presumed. But one of the jobs of the columnist is to offer unsolicited opinion and in times of crisis especially we must put our

shoulder to the wheel. At the root of the matter is a simple fact that has become clear: Our prime minister is not good at personalised diplomacy. He is, as we will see, spectacularly bad at it. Note that this is a separate matter from whether or not personalised diplomacy by itself works. It well might. Richard Nixon and Henry Kissinger used it to bring China onside with the United States, and keep Mao from aligning with the Soviets.

When he was hosting foreign dignitaries, Pakistan's prime minister Zulfikar Ali Bhutto would sometimes personally receive an individual at the airport. In the memoirs of his associates, Iqbal Akhund and Rafi Raza, they write that this sometimes yielded results. However that is not what we are on here.

When the clash at Galwan happened, it collapsed the sense of a camaraderie that had been promoted by the prime minister himself. In September 2014, he coined one of his famous acronyms, speaking about bilateral ties with China as moving ahead from 'INCH' (India and China) towards 'MILES' (Millennium of Exceptional Synergy)

The report that published this news ended with this paragraph, and remember this is 2014: 'Modi's remarks came amid local authorities in Leh claiming that Chinese civilians in government vehicles had entered Indian territory in Demchok in Ladakh and were preventing locals from working on an irrigation project there. The contentious boundary dispute will be among the issues to be discussed by Modi and Xi.'

Modi met Xi a total of 18 times before the clash at Galwan in 2020. Young Indian couples in arranged marriages meet fewer than

18 times but are able to suss out the other individual as being suitable as a life partner or not. Our prime minister was not able to do so, despite all the hugging and jhoola-swinging. Xi is an individual led by a harder calculus and would scoff at melting over gestures.

That we did not know this was our failure. The reaction to his actions was also personalised at our end; after Galwan, Modi has avoided meeting Xi till now. Actual personalised diplomacy would have required him picking up the phone to ask why Xi was acting the way he was, rather than sulking, but as has been noted, he's not actually good at this stuff that he is thought to be good at.

Our diplomats are today unsure of why Trump has been manhandling India but there is a precedent for this. In his first term, Trump forced Modi to stop buying oil from Tehran. We complained that our refineries were calibrated for Irani crude but though there was no UN sanction in operation, we complied with Trump then.

The easiest explanation for why Trump has been harsh with us on tariffs is to be found not in the theory that he is upset that India has not acknowledged his ending of our war with Pakistan (he doesn't care what we think). The explanation is to be found in all schoolyards across the world. The bully does not want to be fighting everyone all the time. The bully wants to make an example of one individual in public so that the others comply without fighting. That is what has happened here in front of the eyes of the world.

Our giant rallies for Trump in Houston and Ahmedabad did not save us because he is a selfish bully who looks after his own interests first and last. That is his character. It is our fault that despite our assumed closeness to him we did not comprehend what was so obvious to Xi and everyone else in positions of power.

If we were to acknowledge that this is why we are where we are then we might be able to correct it. But it is more likely, given the record, that we will continue down the path we have been since 2014 because it is impossible at this juncture to convey that our great leader can ever be anything less than totally competent.

FOCUS GLOBAL SOUTH

CLAIMING CLIMATE MANTLE

political shifts in recent years, perhaps the most striking is the West's rapid decline as a force in global climate governance. Under President Donald Trump's second administration, the United States has become both more aggressive and more isolationist. Meanwhile, the European Union has grown timid, fragmented. and inward-looking. Will the Global South - especially Brazil, South Africa, India, and China – step up to fill the climate leadership vacuum?

In 1972, at the United Nations' first major environmental conference in Stockholm, then-Indian Prime Minister Indira Gandhi famously declared, "Poverty is the worst form of pollution. To this day, the Global South grapples with the challenge of pursuing sustainable development while promoting environmental responsibility.

MUST BE HELD

ACCOUNTABLE

AT COP30 FOR

EMISSIONS

CLIMATE-

PROMISES

FINANCE

AND UNMET

THEIR HISTORIC

The Global South has no shortage of climate visionaries - from Wangari Maathai to Vandana Shiva and Chico Mendes - who have connected environmental protection with community empowerment. But the West has controlled the climate narrative for decades, because it dominates the science that informs the UN Intergovernmental Panel on Climate Change, the multilateral development banks that provide climate financing, and the global media outlets that shape public opinion.

That is particularly true for the US. Despite its stumbles, such as when President George W. Bush withdrew from the Kyoto Protocol in 2001, the rhetorical ambition of other US presidents. including Bill Clinton, Barack Obama, and Joe Biden, ensured the West remained a leading voice in shaping the climate agenda, even when not matched by action.

Trump's resurgence has

There are signs that Brazil, India, South **Africa, and China are set to forge a cohesive** climate agenda ahead of COP30 in Belém, which is focused on collective action

brought that era to an end. His administration has mocked climate science, propped up the fossil-fuel industry, and denounced the UN's 2030 Agenda for Sustainable Development (to say nothing of his destabilizing trade war). The EU, weakened by the rise of the far right and preoccupied with bolstering its defenses, lacks the political will and has fallen short of providing the economic means to lead on international climate cooperation and finance.

This collapse has shattered the idea of a coherent "West," if such a creature ever existed. But it could empower the Global South, which bears the brunt of climate shocks, to lead a more equitable and inclusive clean-energy transition. Despite short-term hurdles, in the long run, reducing fossil-fuel dependence - which is becoming more feasible now that renewables are more scalable and reliable can help stabilize economies and improve public health.

Many Global South governments have already played key roles in shaping the Sustainable Development Goals and the Paris climate agreement. China has also become the undisputed global leader in green tech, outpacing the West in the shift to renewables. Facing US

trade barriers, China's surplus of solar panels, batteries, and wind turbines could be redirected to developing countries, strengthening their energy sovereignty.

There are signs that Brazil, India, South Africa, and China are building on this foundation to forge a cohesive climate agenda ahead of the UN Climate Change Conference (COP30) in Belém, Brazil, which is focused on collective action, or mutirão. In April, Brazilian President Luiz Inácio Lula da Silva and UN Secretary-General António Guterres brought together 17 heads of state from the Global South and the EU for a summit aimed at elevating countries' climate ambitions in the leadup to COP30.

Brazil has also leveraged its BRICS+ presidency to build momentum for COP30, creating a roadmap for expanding cooperation on energy security and establishing the BRICS Laboratory for Trade, Climate Change, and Sustainable Development. In early July, the **BRICS+ Summit of presidents** and heads of state approved a Leaders' Framework Declaration on Climate Finance. Whether these initiatives will deliver tangible results remains uncertain, given BRICS+ countries' divergent interests.

The costs of clean tech have plummeted, largely owing to China's industrial capacity, making some of the material conditions for climate leadership in the Global South more favorable. Moreover, China could finance decarbonization projects in other countries through renminbi loans, export credits, and debt-for-clean-energy swaps. If successful, BRICS+ members' de-dollarization efforts could overcome financial bottlenecks and reduce dependence on Western banks.

In today's fragmented world, multilateralism remains essential, and South-South cooperation on agreed climate targets offers a powerful platform to help revitalize it. The Global South is also well-positioned to lead plurilateral initiatives that advance climate solutions. These coalitions of the willing are crucial for countering the Trump administration's bullying tactics – namely, the use of trade negotiations to shift other governments' investment priorities and weaken their green policies.

Of course, Western countries must be held accountable at COP30 for their historic emissions and unmet climate-finance promises. But the summit represents a vital opportunity for the Global South to demonstrate that climate and development goals are not mutually exclusive. To seize it, these countries' leaders must subordinate their differences to their overriding interest in presenting a cleareyed vision of an energy transition that uplifts their people and protects the planet.

ndia's strategic vision today extends well beyond South Asia. New Delhi recognises that stability in Europe and Eurasia directly influences the balance of power in the Indo-Pacific. As NATO's eastern anchor. Poland offers India lessons, op portunities, and a channel into European security debates.

Although the Polish-Indian dialogue on defence is still developing, it has great potential. For India, closer cooperation with Warsaw is not only about bilateral ties but about strengthening its influence in Europe, where decisions increasingly affect the Indo-Pacific as well.

Since Russia's full-scale invasion of Ukraine in 2022. Warsaw has taken on responsibilities far beyond its size in NATO. Defence spending has surged to over 4% of GDP, the highest share in NATO, and the armed forces are undergoing rapid modernisation with American HIMARS, Abrams tanks, F-35 jets, as well as South Korean K2 tanks and K9 howitzers.

For India, this is notable in two respects. First, it shows how a mid-sized state can quickly reshape its military posture in response to existential threats an experience India can relate to. Second, Poland's strong voice

within NATO ensures that deterrence against Russia remains central to the Alliance's strategy, stabilising Europe and freeing up American resources for the Indo-Pacific. A secure Europe creates opportunities for deeper India–Europe cooperation in defence production and logistics.

Few European states understand Russia as deeply as Warsaw does. Centuries of partitions, Soviet domination, and Cold War subjugation have forged in it, a strategic culture of caution toward Moscow. Since 2022, it has emerged as one of Ukraine's staunchest supporters, providing weapons, training, and humanitarian assistance. It has also driven EU sanctions against Russia and coordinated logistics for Western aid.

India should see it as an example of how middle powers can shape continental responses to aggression. While India maintains a balanced approach to Moscow, it recognises that Poland plays a vital role in preventing instability in Europe - instability that would complicate New Delhi's delicate balancing act between Russia, the West, and China.

Defence ties between Poland and India go back decades. During the Cold War, Poland

supplied equipment and expertise to upgrade Soviet-origin systems in India, Polish companies have since worked with Indian partners on tank modernisation, aviation components, and naval equipment. In recent years, this cooperation has gained momentum. And for New Delhi, pursuing Make in India and Atmanirbhar Bharat, it could consider ties with a practical partner: capable of technology transfer, cost-effective solutions, and joint ventures

A common factor between Poland and India is that both navigate great-power competition as confident middle powers. While Warsaw relies on NATO and the EU to enhance its security, New Delhi builds coalitions like the Quad, BRICS, and SCO to expand its strategic space. Despite different geographies, both prioritise sovereignty, deterrence, and resilience.

The war in Ukraine and tensions in the Indo-Pacific highlight a simple truth: regional conflicts carry global consequences. India faces it on its Himalayan border and across the Indian Ocean. There is need to share lessons, coordinate policies, and strengthen the global security architecture. Encouraging is that signs of stronger Polish-Indian partnership are already visible. High-level visits, growing trade, and academic exchanges have created a favourable environment. Yet defence cooperation remains the most promising vector.

Both countries leadership should realise that while the two may be geographically distant, their strategic trajec tories are converging. Poland as NATO's eastern shield, and India, as the Indo-Pacific's central power, both confront assertive neighbours, invest in deterrence, and seek to shape a multipolar but stable world. For Indian readers, the message is clear: Deepening ties with War saw would complement India's partnerships with France, Germany, and the United States. while adding a Central Europe an dimension to its global strat egy. In today's uncertain world both countries stand as natural allies - bound not by historical accident, but by shared recognition that security is indivisible and that cooperation across continents is essential for a more stable order.

Unwarranted remarks

Sir, The recent comments of Peter Navarro, dismissing India as an "oil money laundromat" and calling the Ukraine conflict "Modi's war," are both factually misleading and diplomatically unhelpful. Mr. Navarro, currently without any official responsibility beyond his association with the MAGA platform, has little authority to make such damaging statements on behalf of Washington. It must be remembered that the United States itself has continued indirect imports of Russian crude, while several NATO partners remain dependent on Russian gas through pipelines. Singling out India, which has acted within the bounds of international law and the G7 price-cap framework, is neither fair nor constructive. The Ukraine crisis is not of India's making; its roots lie in long-standing geopolitical rivalries between NATO and Russia. India's priority remains energy security and balanced diplomacy. Responsible commentary, not inflammatory rhetoric, should guide discussions among partners. Gopalaswamy J, CHENNAI

Spinning success

Sir, Every ending will have a new start as this goes right in case of Ravichandran Ashwin, the tall lanky off spinner from Tamil Nadu bid a farewell to IPL cricket and that is the end of cricket in Indian soil for the successful spinner after Anil Kumble. "My time as an IPL cricketer comes to a close today but my time as an explorer of the game around various leagues begins today" he said. The former India off-spinner has retired from the Indian Premier League (IPL) and plans to play in other franchise leagues across the world. Ashwin, 38, played for five franchises including the Chennai Super Kings - where he won the title twice in 2010 and 2011 - and is fifth on the all-time wicket-taker list with 187. The Board of Control for Cricket in India (BCCI) does not allow any player in Indian international or domestic cricket to feature in overseas leagues. Nothing succeeds like success and Ashwin achieved his success in fine measure claiming the 200, 300 and 400 wickets tally as the first bowler to complete in record time. Let us wish and hope that Ashwin achieves his success all the way.

Mentha oil crisis in Rampur

Rampur (UP), August 30: The mentha oil industry is facing a major crisis with a potential loss of several crores of rupees due to the 50 per cent tariff imposed by the US on Indian imports, according to

The tariffs are threatening the livelihoods of thousands of farmers and workers dependent on the industry, they said. Mentha oil is an aromatic

compound used as a raw material to make a wide range of products. Amrit Kapoor, an exporter, highlighted the severe impact, noting that orders have been put on hold or

"A product of ours that costs \$20 suddenly became \$30 overnight due to a 50 per cent duty. The buyer there doesn't understand how to get a \$30 product from India. So, orders are on hold. The goods are being manufactured in the factory, and we don't know when they will go.'

Kapoor highlighted the broader implications, particularly for farmers and workers. "Over 10 lakh of our farm-

er brothers are connected to this. They will not be able to get enough money, and I think they will not even get the cost of their production back," KaUS TARIFF IMPACT

The tariffs are threatening the livelihoods of thousands of farmers and workers dependent on the industry

He also raised concerns about employment, adding, "If America continues this behaviour and our production decreases. it is possible that in the coming time we may have to reduce the

Shirish Gupta, the President of the Rampur chapter of the Indian Industries Federation, called the tariffs a "pressure tactic" and expressed faith in the government's response.

"The government should create schemes for the industries that are in danger due to the tariff issue so that they don't close down and people's livelihoods are not put at risk.'

He added that he believed "this is a temporary phase" and that he had hope that "soon a positive result will

CUSAT, CSL sign MoU

PRESS TRUST OF INDIA

Kochi, August 30: Cochin University of Science and Technology (CUSAT) and Cochin Shipyard Limited (CSL) have signed an MoU to establish a Centre of Excellence in Sustainable Shipbuilding Technology, officials said.

According to CUSAT authorities, CSL will provide Rs 3.53 crore for the establishment of the centre at the university campus.

"Aimed at bridging the gap between the shipbuilding industry and academia, the Centre of Excellence (CoE) set up through CSL-CUSAT collaboration will focus on software development, skill development, upskilling, and digitisation," the university said in a press release.

"The Centre will provide state-of-the-art computing facilities and advanced marine software for research in Naval Architecture, CFD, FEA, and related areas, thereby promoting innovation in ship design, shipbuilding, and advanced ship analysis," the release added.

CSL Managing Director Madhu S Nair handed over the MoU to the university Vice Chancellor Dr M Junaid Bushiri at a function held Friday.

The MoU was signed by the varsity Registrar Arun A U, the

FEAST-FUN-FESTIVAL

Onam Sadhya: 26-dish lavish spread

INDO-ASIAN NEWS SERVICE

Thiruvananthapuram, August 30: When Onam arrives, Kerala awakens not only in a riot of flowers and festivities but also in the irresistible aroma of the Onam Sadhya -- the grand vegetarian banquet spread on a glossy green plantain leaf.

More than a meal, it is a sensory experience that binds heritage, flavour, and fellowship into one unforgettable celebration.

The festival itself is rooted in legend. Onam honours the benevolent King Mahabali, whose golden reign symbolised prosperity and equality.

According to myth, the gods, threatened by his growing power, sought Lord Vishnu's help. Taking the Vamana avatar, Vishnu sent Mahabali to the netherworld, but granted him the boon of returning once every year to visit his people. Onam marks that annual homecoming. Among its many rituals, nothing embodies the spirit of the festival quite like the Sadhya.

Traditionally served on Uthradam, Thiruvonam, and Avittam, this elaborate feast features around 26 dishes, sometimes ranging from 24 to

28, depending on region and custom. Barring a few northern districts, the Sadhya is a strictly vegetarian affair.

The feast unfolds in a rhythm perfected over generations. The leaf arrives first, its sheen adding freshness to what follows. The opening ensemble includes crisp banana chips, sweet jaggery-coated sharkkara varatti, the sharp tang of inji curry, pickles, and golden pappadams.

Then comes the centerpiece: steaming mounds of Kerala's par-boiled rice, ready to welcome a stream of curries.

Each dish tells its own story: creamy avial with a rainbow of vegetables, fiery sambar brimming with spices, sour-mango pullissery enriched with yogurt, and olan, where ash gourd and black-eyed beans float in delicate coconut milk.

A crunchy thoran brings texture, while a silky pachadi often made with beetroot or

pineapple, cools the tongue. Together, they form a bal anced harmony of sweet, sour salty, bitter, and spicy stuff.

Just as the appetite begins to slow, the finale arrives payasam, Kerala's cherished dessert. Whether it is the jaggery-rich ada pradhamar or the milk-based palada payasam, the sweet note concludes the meal with indul-

Today, the Sadhya's fame extends far beyond Kerala, though many non-Keralites still struggle with eating payasam by hand.

gence, often served in more

than one variety.

With time, preparation too has changed; few households cook the entire feast, as restaurants and caterers now deliver packed Sadhvas priced anywhere between Rs 250 and Rs 2,500. Yet, whether savoured at home or ordered from outside, the Onam Sad hya remains Kerala's most cherished tradition, a feast not just for the body, but for memory, culture, and the spir it of Mahabali's golden age.

HIMANTA BISWA SARMA CHIEF MINISTER, ASSAM

CHOKSI'S BAIL PLEA REJECTED BY BELGIAN COURT OF APPEAL

The bail plea of fugitive diamonds trader Mehul Choksi, wanted in India in connection with over ₹6300-crore fraud in the Punjab National Bank (PNB), has again been turned down by a court of appeal in Belgium, just ahead of his extradition hearing before a court in that country, officials said

SCBA flags low number of women judges in SC

PRESS TRUST OF INDIA

New Delhi, August 30: The Supreme Court Bar Association Saturday flagged the disproportionately low representation of women judges in the apex court and high courts across the country.

A resolution passed by the bar body said, "It is hereby resolved to request the Chief Justice of India and the Collegium to give urgent and due consideration to the elevation of more women judges in the forthcoming rounds of judicial appointments, both to the Supreme Court and the high courts." The bar body said it is a matter of record that several high courts, such as Uttarakhand, Tripura, Meghalaya and Manipur, presently have no women judges, and that across the country there are about 1,100 sanctioned posts of high court Judges, out of which nearly 670 are occupied by men and only 103 by women while the

"The Supreme Court Bar Association (SCBA) expresses its strong disappointment that in the recent round of appointments to the Supreme Court, no woman judge from the Bar or the Bench was elevated, despite the fact that since 2021, no woman judge has been appointed to the Supreme Court. At present, there is only one woman judge serving on the bench of the Supreme Court," the

rest are vacant.

AFTER A GAP OF 7 YEARS MODE and S in China Bihar's yatra to become country-wide movement on 'Vote Chori': Rahul

PRESS TRUST OF INDIA

Tianjin, August 30: After a gap of over seven years, Prime Minister Narendra Modi landed in China Saturday evening on a keenly watched visit that assumed greater significance in view of a sudden downturn in India-US ties triggered by Washington's policies on trade and tariff.

Modi is visiting this northern Chinese city primarily to attend the annual summit of the Shanghai Cooperation Organisation (SCO) August 31 and September 1. However, his scheduled

meeting with Chinese President Xi Jinping Sunday on the margins of the summit has assumed greater significance in the face of Washington's tariff tussle that has impacted almost all leading economies across the world. In the talks, Modi and Xi are expected to take stock of India-China economic ties and deliberate on steps to further normalise relations that came under severe strain following the eastern Ladakh border row.

"Landed in Tianjin, China. Looking forward to deliberations at the SCO Summit and meeting various world leaders," the prime minister said in a social media post, shortly after arriving here from Japan

his two-nation trip. Modi was accorded a warm welcome at his hotel by a group of artiste with Indian classical music and

The prime minister is also expected to hold bilateral talks with Russian President Vladimir Putin and a number of other leaders on the sidelines of the SCO summit. Ahead of his trip to Tianjin, Modi said it is important for India and China to work together to bring stability to the world economic order.

In an interview with Japan's The Yomiuri Shimbun, Modi said stable, predictable, and amicable bilateral relations between India and China can have a positive impact on regional and global peace and prosperity.

"Given the current volatility in the world economy, it is also important for India and China, as two major

economies, to work together to bring stability to the world economic order," Modi said in the interview published Friday. Modi's trip to China comes less than a fortnight after Chinese Foreign Minister Wang Yi visited India.

Following Wang's wide-ranging talks with External Affairs Minister S Jaishankar and National Security Advisor Ajit

Doval, the two sides unveiled a series of measures for a "stable, cooperative and forward-lookrela-

ing" tionship between the two sides. The measures

Zelenskyy dials PM Modi

Tianjin (China): India supports all efforts for peaceful settlement of the Ukraine conflict, Prime Minister Narendra Modi told Ukranian President Volodymyr Zelenskyy during a phone conversation Saturday. Modi is scheduled to hold wide-ranging talks with Putin Monday on the sidelines of a summit of the Shanghai Cooperation Organisation (SCO) in this Chinese city. The Ukraine conflict is expected to be one of the focus areas of the talks. Zelenskyy dialled Modi and conveyed his readiness for a meeting with the top leadership of Russia and that the end of the war must begin with an immediate ceasefire In a social media post, the Ukrainian president said India is ready to make the necessary efforts and to deliver the appropriate signal to Russia.

maintenance of peace along the contested frontier, reopening border trade and resuming direct flight services at the earliest.

PRESS TRUST OF INDIA

Ara (Bihar), August 30: Asserting that the Dalits, minorities and women have the right to vote, Congress leader Rahul Gandhi Saturday said the ongoing 'Voter Adhikar Yatra' in Bihar will become a country-wide movement against the alleged stealing of votes.

Addressing a public rally during the Congress' yatra in Ara, the district headquarters of Bhojpur, Gandhi criticised the central government for the ongo ing special intensive revision of electoral rolls in Bihar, claiming that the exercise was an "attack on the Constitution and the democratic system of the country".

"The 'Voter Adhikar Yatra that started from Bihar will be come a country-wide movement against the stealing of votes of people," he said.

He accused the BJP, the RSS and the Election Commission of "indulging in 'vote chori' (steal ing of votes) in the country".

"The NDA government suc ceeded in stealing votes in Maharashtra and other parts of the country. But we will not allow

the BJP and the EC to steal even a single vote in Bihar," Gandhi, the leader of the Opposition in the Lok Sabha, claimed.

192-tanker convoy heads to Manipur

Imphal: The Manipur government Saturday said all necessary measures will be taken to meet the fuel requirements for the people of the landlocked state. A special convoy of 192 tanker trucks, including 158 diesel and petrol fuels and 29 LPG tanker trucks, left Jiribam town bordering Assam's Cachar district Friday to ensure adequate availability of fuel for the state's domestic and commercial requirements, an official statement said. The convoy is expected to reach the state capital within two or three days, it said.

CRPF inspector found dead in car

Kanpur (UP): A 38-year-old CRPF inspector was found dead under mysterious circumstances in his car at Kanpur Central railway station, Government Railway Police (GRP) said Saturday. The deceased, identified as Nirmal Upadhyay, a native of Uttarakhand's Pithoragarh, was found dead Friday evening. He was posted as an inspector (Signal Department) with the CRPF's 183 Battalion in Jammu and Kashmir's Pulwama. Railway Circle Officer (Kanpur) Dushyant Kumar Singh said, "Upadhyay left his wife's house in Saket Nagar Friday morning following a domestic dispute. His body was later spotted by a parking contractor on the front passenger seat of his vehicle. who then alerted the GRP."

AAI manager held in ₹232cr Fraud Case

New Delhi: The CBI has arrested a senior manager of Airport Authority of India for allegedly siphoning off over ₹232 crore of the public sector company's funds into his personal account for trading purposes, officials said Saturday. AAI senior manager (Finance & Accounts), Rahul Vijay, orchestrated the transfer through a complex trail of fictitious accounting entries in three years during his posting at Dehradun Airport, Vijay indulged in a systematic scheme of fraud and embezzlement of AAI funds by manipulation of official and electronic records, a CBI spokesperson said in a statement, During the investigation, it has emerged that in the period 2019-20 to 2022 ?23, the accused, while posted at Dehradun Airport, manipulated

electronic records by

fictitious assets.

'Indian drones now beyond detection by US or China'

Defence Minister Singh stressed the need for incorporating drones into war policy, calling them critical to modern warfare strategy

PRESS TRUST OF INDIA

Noida, August 30: Defence Minister Rajnath Singh dedicated the country's largest aero engine test bed, manufactured by Raphe mPhibr Pvt Ltd, to the nation in Uttar Pradesh's Gautam Buddh Nagar Saturday. On this occasion, he described the achievement of the institute's founders, Vishal Mishra and Vivek Mishra, as a symbol of India's "new technological revolution"

He said that despite handling the responsibility of the defense ministry for 6-6.5 years, he had never seen such young people setting up such a big and innovative establishment.

The defence minister also highlighted that neither the US nor China can detect Indian drones flying in the sky.

"Today, the youth is not just creating a company, but creating a new thinking and direction in the defense sector. Now when Indian drones fly, neither America nor China will be able to detect them - this is a very big achievement," Singh said.

Defence Minister Singh stressed the need for incorporating drones into war policy, calling them critical to modern warfare strategy.

"Generally, when we hear the word 'aircraft', images of Tejas, Rafale and fighter jets come to mind. This is natural, as these are all combat aircraft. However, in today's changing

times, drones have emerged as a significant force in this field. Drones are now being deployed even in areas where large equipment cannot reach,' he said.

"If you closely observe the Russia-Ukraine conflict, you will notice that drones have been used extensively - earlier, now, and continuously. This proves that understanding the importance of drones and incorporating them into our war policy has become absolutely essential," Singh added.

Uttar Pradesh Chief Minister Yogi Adityanath, CDS General Anil Chauhan, Defence Secretary Rajesh Kumar Singh, Secretary Defense Production Sanjeev Kumar, Rajya Sabha MP Surendra Nagar, Gautam Buddh Nagar MP Mahesh Sharma, and Noida MLA Pankaj Singh were also present at the event.

"A strong reflection of the vision of Aatmanirbhar Bharat was seen here today." Singh said after inaugurating the private facility.

Highlighting the history of drones, Singh said that in their early days, they were

used only for surveillance and reconnaissance. "Later, some countries began developing combat drones, and many nations started deploying them in border conflicts," he said.

"Countries that invested in drone technology have gained a significant edge in this field, while many others have been left behind. From my six to sixand-a-half years of experience (as defence minister), I can say that the reality of today's defence sector rests on aircraft technology and drones, Singh added.

The defence minister further said it was a matter of great pride that India is rapidly advancing in this domain. "Earlier, we had to import drones, but today we are designing, developing, and manufacturing them domestically," he said.

"Many entrepreneurs in the country are contributing to this progress, and no praise is enough for their efforts,' Singh added.

Talking about Operation Sindoor, he said that when determination, courage and science come together, even the impossible becomes possible.

Dhankhar applies for pension as ex-MLA

PRESS TRUST OF INDIA

Jaipur/New Delhi, August 30: Former vice-president of India Jagdeep Dhankhar has applied for pension as a former legislator in Rajasthan, officials said.

Dhankhar, who represented the Kishangarh Assembly constituency as a Congress MLA from 1993 to 1998, received pension as a former legislator until July 2019. It was discontinued after he was appointed the governor of West Bengal.

With his tenure as the vice-president ending following his resignation July 21, Dhankhar has applied afresh to the Rajasthan Assembly secretariat seeking resumption of his pension as a former MLA, the officials said.

The secretariat has initiated the process, and the pension will be applicable from the date his resignation as the vice-president was accepted, they said.

The pension for a former MLA in Rajasthan starts at ₹35,000 per month for a single term, and goes up with additional terms and age. Those above 70 receive a 20 per cent hike. Dhankhar. now 74, is entitled to ₹42,000 pension per month as a former legislator, the officials said.

officials Meanwhile, said Dhankhar is entitled to three pensions -- as a former vice-president, ex-MP, and former member of the Rajasthan Assembly. While there no pension benefits for Dhankhar as the ex-governor of West Bengal, he can avail one secretarial staff for a monthly reimbursement of ₹25,000 as a former governor. As a one-term MP, he

is entitled to ₹45,000 per month as pension, besides

Opposition states back GST rate cut

According to Ramesh, the eight Opposition-ruled states have also demanded compensation to all states for a period of five years, with 2024-25 as the base year, since their revenues are bound to be adversely impacted by the rate cuts

New Delhi, August 30: Opposition-ruled states have extended their support to cut the number of GST rate slabs and the rates for mass consumption items, while demanding a mechanism to ensure the benefits get passed on to consumers, Congress leader Jairam Ramesh said Saturday.

He also said the Congress hopes that next week's GST Council meeting would not be just a "headline-grabbing exercise so typical of the (Narendra) Modi government".

According to Ramesh, the eight Opposition-ruled states have also demanded compensation to all states for a period of five years. with 2024-25 as the base year. since their revenues are bound to be adversely impacted by the rate cuts. They have demanded additional levies on 'sin' and luxury goods over and above the proposed 40 per cent be fully transferred to states, he said. "Eight opposition-ruled states

- Karnataka, Himachal Pradesh, Jharkhand, Kerala, Punjab, Tamil Nadu, Telangana, and West Bengal -- have extended their support to the reduction in the number of GST rate slabs and a reduction in the rates themselves for items of mass consumption," the Congress general secretary in-charge of communications said on X.

He said these states have also called for a mechanism that ensures that the benefits of the rate cuts get passed on to consumers

They have also demanded com pensation to all states for a period of five years with 2024-25 as the base year, since their revenues are bound to be adversely impact ed by the rate cuts, Ramesh said

The eight Opposition-ruled states have also called for addi tional levies on 'sin' and luxury goods over and above the proposed 40 per cent to be fully transferred to states, he said, adding the Cen tre gets close to 17-18 per cent of its revenue from various cesses that are not shared with the states. The Congress leader stressed

that these demands are perfectly legitimate and are bolstered by recent papers published by the Union Finance Ministry's own National Institute of Public Finance and Policy (NIPFP).

Under 50 IAF strikes forced Pak to seek truce

PRESS TRUST OF INDIA

New Delhi. August 30: Less than 50 weapons fired by the Indian Air Force at carefully chosen Pakistani military targets forced Islamabad by midday of May 10 to request for ending the four-day conflict, Vice Chief of the Air Staff Air Marshal Narmdeshwar Tiwari said Saturday.

Air Marshal Tiwari, recounting the mission, said the IAF was able to achieve "complete domination" over the Pakistan military with the strikes which were carried out following Pakistan's attack on the intervening night of May 9 and 10.

"I must tell you that it was a key takeaway for us that in less than 50 weapons, we were able to achieve complete domination. It has not happened before," Tiwari said at the NDTV Defence Summit.

The senior IAF officer, who played a key role in Operation Sindoor, said some of the Pakistan targets that were "taken

out" in the course of the mission were not hit even during the 1971 war. "We made every weapon count, and that is a tacit acknowledgement of the capability of our planners and people who executed the missions," he said. India launched Operation Sindoor May 7, targeting terrorist infrastructure in territories controlled by Pakistan in response to the Pahalgam terror attack.

The strikes triggered four days of intense clashes that ended with an understanding on stopping the military actions May 10. In his remarks, the Air Marshal said the directives to the IAF were that the punitive action should be "visible" and that nine terror targets were chosen out of a large number of options.

Tiwari also disclosed that "conflict elimination" was also a part of the overall strategy. "It is very easy to start a war, but not easy enough to end it. And that was an important

consideration to keep in mind." The important aspect which worked in "our favour was that we were given complete operational freedom", he said.

The Vice Chief of Air Staff also elaborated on the sequence of events relating to Operation Sindoor and showed certain graphic details of India's response to the April 22 Pahalgam terror attack.

Air Marshal Tiwari said India was not willing to escalate the situation following its strikes on Pakistani terror infrastructure on the early morning of

May 7. "We ex-

pected a response and still kept it calibrated, and we engaged only military targets. But when the main attack came on the night of May 9-10,

that was the time we decided that we needed to go and send the right message. We hit them pan-front," he said.

"There were targets which were taken out, which were not even taken out during the 1971 war. That is the kind of extent and damage to capability that we had caused to them," he said. The IAF officer said the idea behind the strikes was to take out Pakistan's capability and send out the "right message".

NO JOBS FOR GERMANS

The number of unemployed people in Germany has topped three million for the first time in a decade, labour office figures showed Friday, raising the stakes for the government's huge investment plans to deliver quick results. A total of 3.02 million people were unemployed in August in seasonally unadjusted terms, with an increase of 46,000 in the number of people out of work from the previous month

PIO jailed in S'pore for causing road mishap

Singapore: An Indian national was sentenced to two years and a month in jail and fined SGD2,000 Friday by a Singapore court for killing a senior National University of Singapore (NUS) law professor in a road accident in 2023. On July 7, 2023, Natarajan Mohanraj (28), a construction worker while driving a lorry looked at his mobile phone and the vehicle hit a car driven by Emeritus Professor Tan Yock Lin (70). The injured was taken to a hospital where he died later that day due to multiple injuries. According to a report by The Straits Times, Natarajan had a history of careless driving. The Traffic Police had issued him a notice in June 2023 to surrender his licence before July 25, but the accident occurred two weeks before the deadline.

Iran arrests eight for Mossad links

Tehran: Iran's Revolutionary Guards said Saturday they had arrested eight people suspected of trying to transmit the coordinates of sensitive sites and details about senior military figures to Israel's Mossad, Iranian state media reported. They are accused of having provided the information to the Mossad spy agency during Israel's air war on Iran in June, when it attacked Iranian nuclear facilities and killed top military commanders as well as civilians in the worst blow to the Islamic Republic since the 1980s war with Iraq. Iran retaliated with barrages of missiles on Israeli military sites, infrastructure and cities The United States entered the war June 22 with strikes on Iranian nuclear facilities.

Most Trump tariffs are illegal, US court rules

IEEPA, the decades-old act, which has repeatedly been deployed by Trump during both terms in office, grants a US president significant authority to respond to a national emergency or a major threat from overseas

New York, August 30: A divided US appeals court ruled Friday that most of Donald Trump's tariffs are illegal, undercutting the Republican president's use of the levies as a key international economic policy tool.

The court allowed the tariffs to remain in place through October 14 to give the Trump administration a chance to file an appeal with the US Supreme Court.

The decision comes as a legal fight over the independence of the Federal Reserve also seems bound for the Supreme Court, setting up an unprecedented legal showdown this year over

Trump's entire economic policy. Trump has made tariffs a pillar of US foreign policy in

his second term, using them to exert political pressure and renegotiate trade deals with countries that export goods to the United States. The tariffs have given the

Trump administration leverage to extract economic concessions from trading partners but have also increased volatility in financial markets. The 7-4 decision from the US

Court of Appeals for the Federal Circuit in Washington, DC, addressed the legality of what Trump calls "reciprocal" tariffs imposed as part of his trade war in April, as well as a separate set of tariffs im-

posed in February against China, Canada and Mexico.

Democratic appointed six judges in the majority and two judges who dissented, while Republican presidents appointed one judge in the majority and two

The court's decision does

not impact tariffs issued under other legal authority, such as Trump's tariffs on steel and aluminum imports.

be strong

went away,

be a total disaster for

the country. It would

weak, and we have to

make us financially

What is the IEEPA?

Trump justified both sets of tariffs - as well as more recent levies - under the International **Emergency Economic Powers** Act. IEEPA gives the president the power to address "unusual and extraordinary" threats during national emergencies.

"The statute bestows significant authority on the President to undertake a number of actions in response to a declared national emergency, but none of these actions explicitly include the power to impose tariffs, duties, or the like, or the power to tax," the court said.

"It seems unlikely that Congress intended, in enacting IEE-PA, to depart from its past practice and grant the President unlimited authority to impose tariffs.

The 1977 law had historically been used for imposing sanctions on enemies or freezing their assets. Trump, the first president to use IEE-PA to impose tariffs, says the measures were justified given trade imbalances, declining US manufacturing power and the cross-border flow of drugs

Trump's Department of Jus tice has argued that the law al lows tariffs under emergency provisions that authorize a president to "regulate" imports or block them completely.

The appeals court ruling stems from two cases, one brought by five small US businesses and the other by 12 Democratic-led US states, which argued that IEEPA does not authorize tariffs.

US blocks Palestinian leader Abbas from UN as allies back statehood

REUTERS

Washington, August 30: The United States said Friday it would not allow Palestinian Authority President Mahmoud Abbas to travel to New York next month for a United Nations gathering of world leaders, where several US allies are set to recognize Palestine as a state.

A State Department official said Abbas and about 80 other Palestinians would be affected by the decision to deny and revoke visas from members of the umbrella Palestine Liberation Organization and the West Bankbased Palestinian Authority

Abbas had planned to attend the annual high-level UN General Assembly in Manhattan. He was also set to attend a summit there, where Britain, France, Australia and Canada have pledged to formally recognize a Palestinian state.

Abbas' office said it was astonished by the visa decision and said it violated the UN "headquarters agreement".

Under a 1947 UN "headquarters agreement", the US is generally required to allow access for foreign diplomats to the UN in New York. However, Washington has said it can deny visas for security, extremism and foreign policy reasons.

Nabil Abu Rudeineh, a spokesperson for Abbas, called Saturday for Washington to reconsider its decision. "We call on the US administration to reverse this decision, which contradicts international law, specifically the Headquarters Agreement between the United Nations and the United States, which prohibits preventing any delegation from access.'

Gaza carnage: Death toll tops 63K The grim milestone highlights the unrelenting tragedy

Gazans are witnessing in nearly 23 months of war with Israel

PRESS TRUST OF INDIA

Gaza City, August 30: Israel declared Gaza's largest city a combat zone and recovered the remains of two hostages Friday as the army launched the start of a planned offensive that has drawn international condemnation.

As the military Israel announced declares resumption of fighting, health **Gaza's largest city** officials said a combat zone as it death toll in Gaza claims the city a Hamas has risen to stronghold, alleging that a 63.025, with network of tunnels remains 59 deaths reported by in use despite several hospitals previous large-scale over the last 24 hours. Aid raids throughout groups and a the area church sheltering za City. people said they would Prime Minister stay in Gaza City, refusing

to abandon the hungry and The shift comes weeks after Israel first announced plans to widen its offensive in the city, where hundreds of thousands are sheltering while enduring famine. In recent days, the military has ramped up strikes on the city's outskirts. Plumes of smoke and thun-

derous blasts could be seen and heard across the border in southern Israel

Friday morning. The renewed attacks also come week after the world's leading food security authority declared a famine in Ga-

Benjamin Netanyahu has said that Israel needs to cripple Hamas' capabilities in the city to avoid a repeat of the

October 7, 2023, attack that ignited the war

While United Nations agencies and aid groups condemned the offensive, people in Gaza City said it made little difference. "The massacres never stopped, even during the humanitarian pauses," resident Mohamed Aboul Hadi said in a text message from Gaza City.

Some who fled south were putting together tents Friday in the central Gaza Strip, west of the Nuseirat refugee camp. They spoke of the miserable conditions they have endured.

'We are thrown in the

streets like, what would I say? Like dogs? We are not like dogs. Dogs are better than us," said Mohammed Maarouf standing in front of a shelter for him and his family of nine. More than 63,000 Palestinians

have been killed since the war started, the Gaza Health Ministry said Friday. The ministry's count — 63,025 — does not distinguish between fighters and civilians. It also said five people had died from malnutrition-related causes over the past 24 hours, raising the toll to 322, including 121 children, since the war began.

Indonesia: Protesters set ablaze regional parliament buildings

REUTERS

Jakarta, August 30: Indonesian protesters set ablaze regional parliament buildings in three provinces during con tinuing demonstrations Satur day, a day after three people were killed in violence that has presented a major test for President Prabowo Subjanto. Parliamentary buildings in

West Nusa Tenggara, Pekalon gan city in Central Java and Cirebon city in West Java were set on fire by protesters, local media reported.

Protests began in Indonesia's capital Jakarta earlier this week over lawmakers' pay, escalating Friday after a police vehicle hit and killed the driver of a ride-hailing motorbike

Toad sculpture reveals climate-driven collapse of city

The sculpture representing the toads symbolizes fertility. and the worship of water and rain after prolonged droughts

REUTERS

Lima, August 30: A small sculpture of two toads, and other water-linked symbols found near the Peruvian city of Caral once the oldest city on the continent - have helped archaeologists confirm that an ancient civilization disappeared due to

devastating climate change. Climate change, a long-term and large-scale shift in weather patterns, can have natural causes such as changes in solar activity or volcanic eruptions. Since the early 1800s, human activities have been its main drivers.

Archaeologists said they found the small sculpture of the two amphibians, dating back 3,800 years, as well as anthropomorphic figures on mud walls earlier this year in the Vichama archeological site, about 160 kilometers north of

the capital Lima The site flourished between

1800 and 1500 BC and was an urban center whose population developed after the collapse of the ancient city of Caral.

The sculpture representing the toads symbolizes fertility, and the worship of water and rain after prolonged droughts, according to the Andean rep-

resentation of the world, ac-

cording to archeologist Tatiana Abad, head of research at Vichama.

Abad adds that along with the 12-centimeter (4.7-inch) sculpture of the two amphibians, figures of skeletal remains of individuals in a state of malnutrition were found on the walls of Vichama.

Abad said the figures look like they are in a state of malnutrition because of climate change, a global phenomenon that caused the decline not only of Caral, but of other civilizations in other parts of the world.

The toad is a symbol of a crisis that these populations endured and it represents fertility and prosperity, Abad said.

Caral, a city made up of 32 monumental buildings dating back around 5,000 years, is contemporary with other civilizations such as those of Egypt and Sumer. However, it uniquely developed in complete isolation, according to researchers.

Peru is a cradle of ancient cultures and it has important archaeological remains such as the Inca ruins of Machu Picchu and the mysterious giant lines and figures of Nazca, located in a desert area on the central coast of the country.

Israeli strike kills Houthi rebel PM

Ahmed al-Rahawi was killed in a Thursday strike in Sanaa along with a number of ministers

PRESS TRUST OF INDIA

Cairo, August 30: The Iranian-backed Houthis said Saturday an Israeli airstrike killed the prime minister of the rebel-controlled government in the Yemeni capital, Sanaa.

Ahmed al-Rahawi was killed in a Thursday strike in Sanaa along with a number of ministers, the rebels said in a statement.

The Israeli military said Thursday that it "precisely struck a Houthi terrorist regime military target in the area of Sanaa in Yemen".

Al-Rahawi, who served as prime minister to the Houthiled government since August 2024, was targeted along with other members of his Houthi-controlled government during a routine workshop held by the government to evaluate its activities and performance over the past year, the rebels' statement said.

The Houthis have repeatedly launched missiles against Israel throughout Israel's war against Hamas in Gaza. The group says the attacks are in solidarity with the Palestinians. Though most of the missiles launched by Yemen are intercepted by Israel, or fragment mid-air, this has done little to deter the attacks.

Earlier in the week, Israeli strikes hit multiple areas across Sanaa, killing at least 10 people and wounding 102 others, according to the Houthi run health ministry and government officials.

The Houthis have launched missiles and drones toward Is rael and targeted ships in the Red Sea throughout Israel's war against Hamas in Gaza The rebels say their attacks are in solidarity with the Palestin ians. In response to the Houthi attacks, Israel and a US-led co alition pounded the rebel-held areas in Yemen, including Sanaa and the strategic coastal city of Hodeida. Israeli strikes knocked the Sanaa airport out of service in May.

The Trump administration announced a deal with the Houthis to end the airstrikes in return for an end to attacks on shipping in May. The rebels however, said the agreement did not include halting attacks on targets it believed were aligned with Israel.

Ather Energy unveils new 2W platform

Bangalore: Electric twowheeler maker Ather Energy Saturday unveiled a new two-wheeler platform for a new generation of electric scooters across multiple segments. The company also announced a series of other significant product and technology developments, including showcasing a concept moto-scooter Redux, and AtherStack 7.0, which would alert riders to share live location, report on potholes and crashes, update them on tyre pressure, among others. Built for versatility, scalability, and cost optimisation, the new e-scooter platform is the first vehicle architecture since the launch of Ather 450, the company announced at an event here. This platformfirst approach enables faster innovation and improved efficiency, serviceability, and rider experience; he said adding the latest platform reflects years of learning, deep R&D, and engineering. A vehicle platform is the underlying structure and integrated systems shared by multiple vehicle models. The structure, which includes the chassis, powertrain, underbody, and electronic architectures, serves as the common foundation for the design and engineering. The company has two manufacturing plants in Hosur (Tamil Nadu), one each for vehicle manufacturing and

battery manufacturing.

IOC's investment New Delhi: Indian Oil Corporation (IOC), the country's largest oil firm, plans to invest ₹1.66 lakh crore over the next five years to expand its core operations in oil refining and fuel marketing, along with ventures in petrochemicals, natural gas, and renewable energy, its chairman Arvinder Singh Sahney said Saturday. The firm is scaling up its capacity to refine crude oil into fuels like petrol and diesel from the current 80.75 million tonnes per annum to 98.4 million tonnes by 2028, with major expansions at Panipat, Gujarat, and Barauni, he said at the company's annual shareholder meeting. To move this energy swiftly and sustainably, IOC is expanding its pipeline network - the country's most extensive - to 22,000 km with 21 projects under execution. These include pipeline extensions and new storage facilities in Nepal. Alongside refining and pipelines, IOC is targeting petrochemicals as the next growth engine, expanding capacity from the current 4.3 million tonnes per annum to over 13 million tonnes capacity by 2030, with a sharp focus on specialty chemicals to reduce import dependence and enhance margins. The firm will continue to expand its 40,000plus fuel retailing network,

FUEL TRANSITION FEUD

The use of E-20 gives better acceleration, better ride quality and most importantly, lowered carbon emissions by approximately 30 per cent as compared to E10 fuel

PRESS TRUST OF INDIA

New Delhi, August 30: Usage of 20 per cent ethanol-blended petrol (E20) on vehicles can lead to a marginal decline of 2-4 per cent in fuel efficiency but the overall gains by the nation outweigh the additional expenses incurred on fuel by individual customers, officials of automotive and petroleum industries and testing agency ARAI said Saturday. Auto industry body Society

of Indian Automobile Manufacturers (SIAM) also asserted that E20 fuel-related insurance and warranty claims issues are "misplaced" and asserted that vehicle manufacturers will "honour the warranty without any ifs and buts". "The mileage related chal-

lenges, there is admittance, clearly, that (due to the) intrinsic nature of the fuel there is marginal drop, but it accrues the huge benefit to the nation, to the society, to the farmer, to the environment, to the exchequer and all of us," SIAM Executive Director PK Banerjee

Refuting claims by customers that fuel efficiency has dropped

by 20-50 per cent, he said, "It is all a misplaced misinformation campaign.'

Citing results of different tests, Banerjee said, "The range (of drop in mileage) we found was 2 to 4 per cent depending upon whatever vehicles we have tested.

He noted that there is only 6 per cent less energy in E20 due to the intrinsic nature of the calorific value of the ethanol. which is 30 to 35 per cent lower compared to petrol, but added fuel efficiency is subject to various factors, including driving style, traffic and usage of air conditioners, among others,

When asked about issues on warranty and insurance due to usage of E20 fuel on non-E20 vehicles, Banerjee said, "The E20 fuel-related insurance and warranty, any claim, whoever is spreading is misplaced. There will be honouring of the warranty without any ifs and buts (by OEMS).'

On the question of the impact

of the usage of E20 fuel on vehicle engines, which are non-compliant with the latest fuel, He

said that till date, "millions of

vehicles are running and plying

E20 for quite some time now,

not a single vehicle breakdown

has been reported". Automotive Research Association of India (ARAI) Director Reji Mathai, citing two studies done in 2016 and 2021, stated that "in the testing we have found them not to have any adverse impact...they have been

accepting the E20 fuel". When asked for details of the reports. Mathai said it has been submitted to the "concerned authorities" but not made public due to the confidentiality of data of the OEMs involved.

Highlighting the benefits of ethanol blending in petrol fuel, Federation of Indian Petroleum Industry (FIPI) Advisor PS Ravi claimed it has helped in driving rural prosperity, helping farmers to earn more, with ₹40,000 crore payments made for ethanol procurement made in 2025

He also said since 2014-15, 245 LMT of crude oil has been substituted and there have been savings of ₹1.44 lakh on forex and in 2025, ₹43,000 crore of forex savings are expected. It has also helped in reducing 763 LMT of carbon dioxide emissions.

Ravi further said ethanol blending has also reduced crude import dependence, shielding India from global oil price shocks and supply disruptions and it gives India geopolitical leverage by positioning itself as a leader in sustainable fuels and a model for other developing economies.

On the issue of consumers having to spend more on fuels due to the drop in efficiency. Tovota Kirloskar Motor Coun try Head and Executive Vice President - Corporate Affairs and Governance, Vikram Gulati said the benefit of ethanol blending has to be seen for a wider perspective such as sav ing on forex that has a direct impact on India's current ac count deficit, and subsequently on the economy.

Besides, he asserted that ethanol blending is "enabling the entire country to move towards sustainability in a very in a very smooth manner, without disruption either to our economy, and best of all, creating a future which is truly self reliant, not only from a point of view of energy, but also from a point of view of technology and raw materials.

INDO-ASIAN NEWS SERVICE

New Delhi, August 30: Golden Tobacco Limited (GTL) and its promoters has been subject of a new order from the Securities and Exchange Board of India (SEBI), which cited fund diand disclosure violations. The order, which was issued following a thorough investigation, focuses on years of improper use of company assets and irregular financial practices.

Due to his violations of the Listing Obligations and Disclosure Requirements (LODR) Regulation and the Prohibition of Fraudulent and Unfair Trade Practices (PFUTP) Regulation, SEBI has banned Sanjay Dalmia, the promoter of GTL, from the securities market for two years and fined him ₹30 lakh.

Another promoter and director, Anurag Dalmia, was fined ₹20 lakh and banned for a period of one and a half years.

Additionally, Ashok Kumar Joshi, the former director, was ordered to pay a penalty of ₹10 lakh and was banned from the capital market for a year.

The order states that between FY10 and FY15, GTL made loans and advances totalling ₹175.17 crore to Golden Real Estate Infrastructure Limited (GRIL), a subsidiary, SEBI discovered that the remaining funds were transferred from GRIL to promoter-related entities, even though only ₹36 crore was paid back.

The regulator also observed

that GTL's promoters and directors entered into agreements involving prime land assets of the company without making proper disclosures to shareholders. A number of agreements with outside parties for land sales or leas es were either not optimal for the business or did not provide clear information to the stock exchanges.

The promoters profited from the money diversion, accord ing to SEBI's Quasi-Judicial Authority N Murugan.

He did clarify, though, that neither GTL nor the promot er-affiliated entities were par ties to the current proceedings and that no explicit orders could be made against them.

However, according to the order, the money that was di verted was indirectly attribut able to shareholders, meaning that they suffered a notional

Once well-known for its cigarette brands, including Chan cellor and Panama, GTL has steadily turned its focus to real estate, amassing sizeable land holdings in Delhi and Mumbai.

The company was admitted into insolvency proceedings in 2022 by the National Company Law Tribunal (NCLT), Ahmedabad, using the Corporate Insolvency Resolution Process In this case, SEBI has al-

ready taken action, issuing adjudication orders against Sanjay and Anurag Dalmia in October 2013 and against other people in February 2014.

OUTR organises workshop on "Energy Conservation Building Code"

Bhubaneswar: Odisha University of Technology and Research (OUTR) hosted a one-day workshop on "Energy Conservation Building Code' on 30th August 2025, focusing on its impact on household electricity consumption. PM Mishra, EIC-cum-Principal Chief Electrical Inspector, Bhubaneswar, graced the occasion as the Guest of Honour, while B B Biswal, Vice Chancellor of OUTR, presided over the programme as the Chief Guest. The event was further enriched by the presence of the Dean,

SRIC, and Lokanath Tripathy, HoS, Electrical Sciences. It was coordinated by Santanu Sen, School of Electrical Sciences. The inaugural session was followed by insightful technical sessions that shed light on the growing importance of energy conservation and the practical implementation of energy-efficient measures. The programme served as an effective platform to disseminate knowledge, exchange ideas, and create awareness about sustainable energy practices among participants.

Govt hikes gunny bags usage charges by 40%

INDO-ASIAN NEWS SERVICE

New Delhi, August 30: The government has increased usage charges for gunny bags by nearly 40 per cent, bringing financial relief to state governments and union territories The government has revised

usage charges from ₹7.32 per used bag to ₹10.22 per used bag or the actual cost incurred by the state government/UT, which ever lower.

The usage charges for used gunny bags are increased in proportion to increase in cost of new gunny bags from KMS 2017-18 to KMS 2024-25.

The revised rate is applicable from KMS 2025-26 onwards.

According to Minister of Consumer Affairs, Food and Public Distribution, Pralhad Joshi, the decision is aimed at ensuring smooth procurement operations thereby, supporting sustainable packaging practices while strengthening Centre-State cooperation in foodgrain procurement and distribution.

The Centre received requests from various states and UTs for the revision following which, the Department of Food and

Public Distribution, GoI, constituted a committee.

The committee comprised of members from state governments/UTs and Food Corporation of India (FCI) for comprehensive review of packaging

Andhra Pradesh, Punjab, Madhya Pradesh, Telangana, Uttar Pradesh and Haryana provided their suggestions to the committee

Earlier this week, as part of continuous efforts to moderate prices of wheat before the upcoming festive season, the Central Government decided to reduce the wheat stock limit applicable to wholesale and retail traders as well as processors in all States and Union Territories

until March 31, 2026. The stock limit of wheat for wholesalers has been reduced to 2,000 metric tonnes (MT) from 3,000 MT earlier, while in the case of retailers, the stock limit has been cut to 8 MT for each retail outlet from 10 MT earlier, according to a statement issued by the Ministry of Consumer Affairs. Food and Public Distribution.

Similarly, for wheat processors, the wheat stock limit has been scaled down to 60 per cent of the monthly installed capacity (MIC) multiplied by the remaining months of FY 2025-26.

Earlier, the limit was fixed at 70 per cent of the monthly installed capacity multiplied by the remaining months of FY 2025-26.

India's first tempered glass manufacturing facility unveiled

INDO-ASIAN NEWS SERVICE

Noida, August 30: Union Electronics and IT Minister, Ashwini Vaishnaw. Saturday inaugurated the nation's first tempered glass manufacturing plant here which is a joint venture of Optiemus Infracom, an Indian electronic products manufacturer and Corning, the world's leading

innovator in materials science

"We are pleased to see the partnership between Optiemus and Corning, and the commencement of production today. The overall ecosystem for compo nents is developing rapidly in India. Over the last 11 years electronics manufacturing has grown sixfold, and today it is around ₹11.5 lakh crore indus try, with exports of around ₹3.5 lakh crore; an impressive achievement and a testament to the prime minister Narendra Modi's vision," Vaishnaw said.

This is a landmark moment for the Indian electronics manufacturing industry and the 'Make in India' vision. Despite being one of the world's largest mobile phone markets, India has relied on imports for tempered glass.

India's economy would achieve

a growth rate of 7 per cent in

cent in Q1 is very encouraging.

It reflects strong domestic de

mand and resilient manufac-

turing. For the auto compo

nent industry, this momentum

Director General, ACMA.

"India's GDP growth of 7.8 per

the current financial year.

Govt reforms, fiscal prudence play key role in GDP

PRESS TRUST OF INDIA

New Delhi, August 30: The five-quarter high Gross Domestic Product (GDP) growth of 7.8 per cent in April-June is an outcome of a slew of reforms undertaken by the Modi-led government over the last decade, coupled with its fiscal prudence, India Inc said Saturday.

Industry leaders expressed that India's economy will be able to weather global headwinds emanating from US tariffs, on the back of strong domestic demand and is on a sustained growth trajectory.

Indian economy grew by 7.8 per cent in April-June -- the highest in the past five quarters. India remains the fastest-growing major economy. as China's GDP growth in the April-June period was 5.2 per

"India's growth story reflects the underlying strengths of the Indian economy, strong fiscal

boost through increased gov-

ernment expenditure, great

manufacturing, and of course, continued reforms. At 7.8 per cent GDP growth, not only would India be the fastest growing, but this would also be standout growth in the face of many global headwinds," CII President Rajiv Memani said. "India's real GDP growth of

performances by services and

7.8 per cent in the first quarter of FY2025-26 is a remarkable achievement ... This outcome reinforces India's position as the fastest growing large economy in the world, at a time when global growth is facing significant headwinds," CII Director General Chandrajit Banerjee Importantly, CII's analysis

of new project announcements data shows encouraging signs of a revival in private capital expenditure, complementing the government's infrastructure push and creating the conditions for a new investment cycle. This will not only add to growth but also generate largescale employment.

"CII remains confident that with industry and government working closely together, India will continue to deliver resilient, inclusive, and world-leading growth," Banerjee said.

FICCI President Harsha Vardhan Agarwal said the GDP growth number for the first quarter of the current fiscal at 7.8 per cent has come as a pleasant surprise, beating all expectations.

"The income tax relief provided in the budget, cut in the policy repo rate by 100 basis points, good progress seen in the monsoon and the forthcoming resetting of the GST rates will support domestic demand and provide us with the necessary buffers to counter the expected weakness in exports on account of the reciprocal and penal tariffs imposed by the US," he observed.

FICCI Senior Vice President

Anant Goenka said the GDP numbers for the first quarter clearly indicate the strength of the Indian economy and the improving momentum, which is being supported by domestic

"India is amongst the fastest growing major economies in the world and with our Government pressing the accelerator on reforms in close collaboration with states, we could see many new enablers of growth and demand being set in motion

in the months ahead," he added. PHDCCI President Hemant Jain said the economy is resilient today because the government has undertaken significant structural reforms in the last decade. "The reforms have been across sectors, be it in infrastructure, ease of doing business, GST or manufacturing, among others. As a result of all these reforms, we are sure that in the times to come, despite the ongoing geopolitical challenges and tariff headwinds, the Indian economy will be on a

played a huge role in boosting consumption, are showing up and the next big reforms like GST will further boost growth prospects.

He observed that GDP growth of 7 per cent for the full financial year is well within reach on the back of reforms being undertaken by the government.

adding new-age sources

such as EV chargers, battery-

swapping stations and CNG

and LNG dispensing outlets.

He expressed confidence that

sustained growth trajectory,'

Jain said.

Paris, August 30: Star Indian shuttlers Satwiksairai Rankireddy and Chirag Shetty assured India of a medal at the World Championships after defeating their nemesis, Malaysia's two-time Olympic medallists Aaron Chia and Soh Wooi Yik, in the men's doubles quarterfinals here.

A year after the heartbreak in Paris, where they lost to the same pair and missed out on an Olympic medal, the world No 3 duo produced a commanding 21-12, 21-19 win in 43 minutes to avenge that loss and storm into the semifinals late Friday

"It's always a pleasure playing against them. We've always had some really tough

battles. At the biggest of events. And really happy we could win today," Chirag said after the match.

The Asian Games champions will next face 11th seeds Chen Bo Yang and Liu Yi of China.

Asked if the Chinese will be underdogs, Satwik said: "Not at all. Playing semi-finals, no underdogs.

Chirag added: "Just like any other match that we played in this tournament. Take it one match at a time. They are a good, formidable pair. We played against them before. Really looking forward to to-

Only hours earlier, PV Sindhu's exit in the quarterfinals had denied India a medal in women's singles. By the time Satwik and Chirag walked onto

It will be Satwik and **Chirag's second medal** at the prestigious event after their 2022 bronze, extending India's streak of podium finishes at every edition since Jwala Gutta

broken Indian hearts. Chia and Soh had beaten the Indians in Singapore and China this year after crushing their Olympic medal dream in Paris

opponents who had repeatedly

On Friday night, however,

the world No 9 Indians turned the script on its head with a dominating show.

Chirag opened with a drive-serve winner before a 59-shot rally, the longest of the match, and ended with his thundering mid-court smash to put India 4-2 ahead. Satwik's booming serves and the pair's seamless rotation saw them reel off six straight points to lead 9-3.

The top seeds went into the mid-game interval 11-5 ahead after Satwik conjured a deft cross-lift. Chia and Soh managed to take another marathon 49-shot rally, but the Indians quickly wrested back the momentum.

From 15-8, the Indians tightened the screws. Chirag's sharp net play and Satwik's clever

serve helped India keep things in grip.

Chirag then earned nine game points with a deceptive return and they sealed it with another aggressive return.

After the change of ends, the Indians dished out blistering attack to carry their momentum from the opening game, racing to a 10-5 lead with Satwik's sharp serves and Chirag's booming backcourt smashes setting the tone.

The Indians had a four-point advantage after Soh sprayed into the net.

"In the second game, even when we were leading, I knew it wouldn't be that easy. We have played them many times before and every time we have won in straight games, it has gone neck and neck," Satwik said.

Asian Championship

Shooters dominate with best-ever show

India ended the championship just short of the 100-medal mark, with 26 silver and 23 bronze medals to go with the 50 gold

New Delhi. August 30: Curtains were drawn on the 16th Asian Shooting Championship (All events) in Shymkent, Kazakhstan, and after 12 exhilarating competition days, the Indian team registered a historic best-ever showing, finishing with an unprecedented 50 golds to top the tally- also a first in the history of the premier continental championship.

Particularly pleasing was the senior team's performance in the 15 Olympic events across the rifle, pistol, and shotgun disciplines, where Indian shooters won six gold, two silver, and three bronze medals, finishing behind global powerhouse China, which won eight gold medals, with hosts Kazakhstan picking up the other.

"It is a spectacular performance, and it is quite clear that the confidence of the shooting ecosystem is skyhigh and significantly boosted by our performance at the Paris Olympics. Particularly pleasing is the performance of the juniors, which tells you that Indian shooting has just begun and greater things are sure to come in the near future." said a pleased Kalikesh Narayan Singh Deo, President, National Rifle Association of India (NRAI), on the performance.

India ended the championship just short of the 100-medal mark, with 26 silver and 23 bronze medals to go with the 50 gold. The hosts were second with 70 medals and 21 gold, while China was third overall with 15 gold and 37 medals.

The highlight of the senior's performance being two-time Olympian Elavenil Valarivan's

a double gold partnering Arjun Babuta in the mixed team event) in women's air rifle with an Asian record score, Neeru Dhanda's first ever Asian championship gold for India in women's trap, Sift Kaur Sam ra's first Asian title in women's 50 rifle 3-position (3P) and Aishwary Pratap Singh Tomar's defense of his men's 3P title.

Indian junior shooters also demonstrated the depth of the country's talent in the sport by completely dominating all the Olympic events, winning 10 gold, four silver, and three bronze medals each.

The other gold medals came in the youth competitions and team events, as well as in non-Olympic events. Former world champion Ankur Mittal, for example, won the men's Double Trap gold with a world record score of 107, while Rio Olympian Gurpreet Singh struck gold in the men's 25m Standard Pistol event.

SHORT TAKES

RCB announces ₹25L for stampede victims

Bangalore: Reigning IPL champions Royal Challengers Bengaluru Saturday announced a compensation of ₹25 lakh each to the families of those who lost their lives in the June 4 stampede that marred the team's title celebrations at the M Chinnaswamy Stadium. The franchise said the financial support was being extended under its new initiative "RCB Cares". The tragedy had occurred when nearly two-and-halflakh people thronged the M Chinnaswamy stadium to catch a glimpse of RCB cricketers after their maiden IPL trophy victory. The resultant chaos led to the death of 11 people, besides leaving several others injured. In the aftermath of the stampede, RCB had announced a financial support of ₹10 lakh to each of the 11 families of the deceased.

Rana, others fined for code of conduct breach

New Delhi: Five cricketers, including India player Nitish Rana, were Saturday fined between 30 and 100 percent of their match fees for code of conduct breach in the Delhi Premier League match between South Delhi Superstarz and West Delhi Lions. On Friday, West Delhi Lions skipper Nitish Rana's blistering century propelled West Delhi Lions into Qualifier 2 of the DPL as they outclassed South Delhi Superstarz by seven wickets in the Eliminator at the Arun Jaitley Stadium. West Delhi Lions' Krish Yadav has got the maximum punishment, being fined 100 per cent of his match fee for a code of conduct violation relating to audible obscenity during the match.

Pak to visit India for **Jr Hockey World Cup**

Rajgir: Pakistan will travel to India later this year to compete in the FIH Junior World Cup, Hockey India secretary general Bholanath Singh confirmed Saturday. Pakistan opted out of the ongoing Asia Cup in Bihar following the military conflict between the two countries. citing security concerns. It had raised doubts if the team from the neighbouring country will compete in the Junior World Cup to be held in Southern Indian cities of Chennai and Madurai in November-

Ankit, Dhull tons extend North Zone's dominance

Bangalore, August 30: Centuries by skipper Ankit Kumar and Yash Dhull powered North Zone to a commanding position against East Zone, as they reached 388/2 in 90 overs at stumps on Day Three of their Duleep Trophy clash at the BCCI COE Ground 1 here Saturday.

Ankit remained unbeaten on 168 off 264 balls, laced with 16 fours and a six, and shared a solid 240-run partnership with Dhull, who hit 133 off 157 deliveries, including hitting 14 fours and three sixes, as North Zone extended their dominance with a lead standing at a staggering

On a cloudy day. East Zone had no respite as their bowling line-up came under the pump due to Ankit, Dhull, and Badoni. What also hurt them was that they didn't have the services of pacer Mukesh Kumar due to a possible hamstring strain.

Supporting Ankit in the run-making party is Ayush Badoni, who's unbeaten on 56 off 78 balls, laced with three

boundaries. In the morning, North Zone chose not to enforce the follow-on, and with East Zone bowlers not getting their line and length right. Ankit and Shubham Khajuria shared a 54-run opening stand before the latter was dismissed by Suraj Sindhu Jaiswal.

While Ankit raised his fifty off 74 balls, Dhull was proactive in taking the attack to spinners Manishi and Riyan Parag, and eventually reached his fifty in just 49 balls. The duo were largely untroubled throughout their partnership, with Dhull scoring a century off 112 balls, while Ankit raised his ton off 155 deliveries.

But Dhull's stay ended soon after the tea break when he was

trapped lbw by Parag, while attempting to pull a short ball that skidded through. With the likes of Mohammed Siraj, Rohit Sharma, Shubman Gill, Jasprit Bumrah, Yashasvi Jaiswal, Akash Deep, Jitesh Sharma, Shardul Thakur, B. Sai Sudharsan, and Karun Nair in attendance, Ankit got past 150 while Badoni went past fifty before stumps were called

on a super productive day for North Zone. **BRIEF SCORES:**

North Zone 405 and 388/2 in 90 overs (Ankit Kumar 168 not out, Yash Dhull 133; Suraj Sindhu Jaiswal 1-37, Riyan Parag 1-63) lead East Zone 230 all out in 56.1 overs (Virat Singh 69; Auqib Nabi 5-28) by 563 runs

EXTREME HEAT

Asia Cup match timings delayed by 30 minutes

INDO-ASIAN NEWS SERVICE

Dubai, August 30: 18 of the 19 matches at the upcoming Men's T20 Asia Cup, including the final, will now begin at 6:30pm local time - half an hour later than originally scheduled - to avoid sweltering heat conditions in the region.

With daytime temperatures in the UAE expected to touch 40s in September, as per the predictions by weather forecasters, it has led to all daynight fixtures in the eight-team competition being revised from 7:30 pm IST (6 pm local time) to 8 pm IST (6:30 pm local time).

The only game unaffected by the change is the lone day fixture between UAE and Oman September 15 at the Sheikh Zayed Cricket Stadium in Abu Dhabi, starting on 5:30 pm IST (4 pm local time).

The tournament will open September 9 in Abu Dhabi, with Afghanistan facing Hong Kong in the curtain-raiser of the eight-team competition. Dubai will host 11 games, including the final September 29 while Abu Dhabi will host eight

Djoko, Alcaraz cruise; Sabalenka strikes back

New York, August 30: Carlos Alcaraz and Novak Djokovic edged closer to a semi-final showdown at the US Open Friday as Aryna Sabalenka avenged the memory of a bitter defeat to power into the last 16.

Spanish second seed Alcaraz and Serbian legend Djokovic both booked their passage into the last 16 with comfortable victories and now stand just two wins away from meeting in the

Alcaraz breezed past Italian 32nd seed Luciano Darderi in emphatic fashion, winning 6-2, 6-4. 6-0 on the Arthur Ashe Stadium while Djokovic, who is chasing a record 25th Grand Slam singles title, took care of Britain's Cam Norrie 6-4, 6-7 (4/7), 6-2, 6-3.

Alcaraz's one hour 44-minute victory sends the 2022 US Open champion into a meeting on Sunday against France's Arthur Rinderknech, who defeated compatriot Benjamin Bonzi 4-6, 6-3, 6-3, 6-2. The five-time Grand Slam singles champion admitted he had been nervous about having to open the day's play at 11.30am local time.

DJOKOVIC MILESTONE

Djokovic, 38, meanwhile was clinical in his win over Norrie in the evening session, which sends him into a fourth round tie against German veteran Jan-Lennard Struff.

"Coming into any match you really want to win in straight sets without any drama but obviously that's not possible,' said Diokovic after becoming the oldest man to reach the US Open last 16 since Jimmy Connors in 1991.

Djokovic's fourth round op ponent Struff dealt a blow to American hopes of a first home US Open champion since 2003 with a 6-4, 6-3, 7-6 (9/7) defeat of popular 17th seed Frances

Dravid's Rajasthan Royals exit: Was he aligned with franchise on captaincy for Riyan?

New Delhi, August 30: Offered a broader role but still decided to quit. Rahul Dravid's exit as Rajasthan Royals' head coach has more than what meets the eye given that the IPL franchise is dealing with precarious leadership choices that may not have had the former India captain's "approval".

The 52-year-old had rejoined the franchise only last year on a multi-year contract but has decided to quit the team which he also represented as a player from 2011 to 2013. He went on to serve

as a Director and mentor in the following two years.

The press release issued by RR Saturday categorically states: "As part of the franchise structural review Rahul had been offered a broader position at the franchise, but has chosen not to

take this. What it doesn't state is that Dravid was actually being offered an elevation that would limit his role in strategic decisions as far as the main team was concerned.

"If you have ever worked with any IPL team, just know one thing. Whenever a head coach is offered a broader

role, it is like a punishment promotion. It means you have no role in actual team building process," a noted Indian coach, who has worked in support staff of a couple of IPL teams, told PTI.

With long time skipper Sanju Samson already staring at the exit door, Royals might have to take a few tricky calls about a new fulltime captain after a disastrous 2025 season that saw them finish ninth on the table.

Riyan Parag, the biggest sporting name to have emerged from the state of Assam, captained Royals

last season in Samson's absence due to fitness issues and is believed to be the top contender for full-time lead-

But given that the team has a significantly more decorated player in Yashasvi Jaiswal in the same lineup, was Dravid actually on same page with the Royals management with regards to ascension of Riyan as the leader?

Despite the nightmarish run this year, it is hard to believe that the Royals management wanted to get rid of a T20 World Cup-winning
